## SUMMARY OF KANSAS ECONOMIC CONDITIONS

The outlook for both the regional and U.S. economies remains uncertain and tied to the path of the pandemic and global conditions. Declines in consumption and job losses are most notable in service sectors of the economy, highlighting the unique nature of this public-health related downturn. However the local economy is showing signs of recovery. The unemployment rate continues to decline. The Johnson County December unemployment rate was 1.7 percent, compared to the Kansas unemployment rate of 2.8 percent.

Prairie Village sales tax collections through the fourth quarter were up 12 percent compared to the same time last year. In comparison, use tax collections over the same time period were very strong and were 36 percent higher compared to last year. Online purchases, such as Amazon, are an example of use tax.

Residential real estate remains strong in Johnson County and Prairie Village. Building permit revenues were up 15% from the prior year. This is important since Prairie Village is considered a bedroom community.

The focus of this report is on 2021 revenues and expenditures. The city's goal is to achieve a "positive outlook" in all key financial areas.

#### **Rating Scale for Key Variances:**

- Positive Outlook
- Reason for Concern or Comment
- Negative Outlook

### **Key variances include:**

- **Property Tax.** Property tax revenues are \$488,453 <u>greater</u> compared to the last fiscal year, and are at 99.6 percent of the budget estimate. The majority of property taxes are distributed to the City in January and June. In 2020 we were also at 99.5 percent of the budget estimate.
- Sales Tax. Sales tax revenues are \$651,180 greater compared to the last fiscal year, and are at 112 percent of the budget estimate. In 2020 we were at 98 percent of the budget estimate. Budget estimates were conservative for 2021 due to the pandemic.
- Use Tax. Use tax revenues are \$646,712 greater compared to the last fiscal year, and are at 178 percent of the budget estimate. Use tax is a tax on goods purchased outside our taxing jurisdiction but would have been taxable had they taken place within it. In 2020 we were at 132 percent of the budget estimate.
- Recreation Fees: Recreation Fees are \$384,816 greater compared to 2020, and are at 101 percent of the budget estimate. 2020 recreation fees were drastically reduced due to the pandemic.
- **Franchise Fees.** Franchise fee revenues are \$28,298 <u>greater</u> compared to the last fiscal year, and are at 96 percent of the budget estimate. However they continue to be a volatile revenue source with overall decreasing trends.
- Interest on Investments. Interest receipts for the General Fund only are \$99,140 less compared to 2020, but are at 68 percent of the budget estimate and are a relatively small revenue source. Interest receipts depend on the maturity date of investments, type of investment and rate of interest and are highly contingent on the overall economy.
- **Fines and Fees.** Fines and fees revenues are \$134,327 <u>greater</u> compared to the last fiscal year, but are at 89 percent of the budget estimate. This revenue source consists of municipal court revenue which has been decreasing in recent years due to the pandemic and trends in court fines and fees. We will continue to monitor this source.
