CITY OF PRAIRIE VILLAGE

Ended September 30, 2024

Relating to Fiscal Year 2024

Unaudited

GENERAL FUND

General Fund Balance. The chart below shows that with 75% of the year complete revenues are at 82.9% of budget, while expenditures are at 68.2% of appropriations. The chart also reports the budgeted fund balance at the start of 2024, which was \$10,407,990 and the audited actual fund balance, which is \$11,317,714. The 2024 target ending fund balance is 25 percent of revenues (excluding transfers). The ending audited 2023 fund balance is 43 percent.

General Fund		CY	Budget	YTD	Percent		
Fund Balance 1/1		\$	10,407,990 \$	11,317,714			
Revenues Expenditures			27,850,648 31,586,176	23,085,327 21,534,472	82.9% 68.2%		
Balance			6,672,462	12,868,570			

SUMMARY OF KANSAS ECONOMIC CONDITIONS

The outlook for both the regional and U.S. economies continues to be strong, with recession fears fading into the rear-view mirror. 2023 showed increases in real GDP, employment, and labor force participation in Kansas. Personal consumption ended the year with year-over-year gains, while the City seemed mostly insulated from harder-hit national sectors such as residential and non-residential investment. Job losses were most notable in the service sector of the economy. The unemployment rate continues to be extremely low, both in Johnson County and Kansas as a whole. The Johnson County June unemployment rate was 3.5% (up from 2Q 2024 at 3.3%), compared to the stated Kansas unemployment rate of 3.3%. The impacts of inflation and a tight labor market continue to drive costs for durable goods and capital projects higher.

Prairie Village sales tax collections through the third quarter were down 0.8% compared to the same time last year. Use tax collections over the same time period were better at 6.2% higher than last year. Both sales and use tax growth does appear to be slowing after increasing rapidly during online purchasing booms of 2020-2022. Sales and use tax growth are a function of higher personal consumption and higher prices due to inflation over the last two years.

Residential real estate remains strong in Johnson County and Prairie Village. This is important since Prairie Village is considered a bedroom community. According to the County Economic Research Institute (CERI), single-family residential building permits in Johnson County have been lower than population growth over the last ten years, which has combined with increasing costs of labor and materials to drive the average price of homes sold up an average of 8.9% the last five years. New single-family residential building permits are higher than at this point in 2023, however 2023 had the lowest number of new homes built in the last decade.

Quarterly Financial Report – 3rd Quarter Ended September 30, 2024

The focus of this report is on 2024 revenues and expenditures. The city's goal is to achieve a "positive outlook" in all key financial areas.

Rating Scale for Key Variances:

- Positive Outlook
- Reason for Concern or Comment
- Negative Outlook

Key variances include:

- Sales Tax. Sales tax revenues are \$32,225 <u>less</u> compared to the same period the last fiscal year, and are at 61.6% of the budget estimate. Sales tax distributions lag by two months, so the first distribution for 2024 was in March for January. In 2023 we were at 70.4% of the budget estimate. Sales tax collection growth has slowed significantly in the last several months, and has shown a slight drop from prior levels. Data for other cities in the county shows this to be common county-wide.
- Use Tax. Use tax revenues are \$96,274 greater compared to the last fiscal year, and are at 66.2% of the budget estimate. Use tax is a tax on goods purchased outside our taxing jurisdiction but would have been taxable had they taken place within it. Use tax distributions also lag by two months, so the first distribution for 2024 was in March for January. In 2023 we were at 80.7% of the budget estimate. Use tax collection growth slowed significantly in the first half of the year but has recovered somewhat this quarter, and it does not yet appear to be dropping from prior levels.
- Franchise Fees. Franchise fee revenues are \$142,855 less compared to the last fiscal year, and are at 70.4% of the budget estimate. Franchise fee receipts are a volatile revenue source that are highly weather-dependent, with seasonal fluctuations and occasional timing differences in when revenues are received. For example, natural gas franchise fees are highly dependent on winter temperatures, and early 2024 average temperatures were significantly higher than the same months in 2023. It does appear that natural gas and electricity franchise fees, which make up nearly 90% of expected franchise fees, are trending lower than in prior years. In 2023 we were at 75.2% of the budget estimate.
- Fines and Fees. Fine and Fee revenues are \$7,440 less compared to the last fiscal year but are at 83.8% of the budget estimate. 2023 finished the year at 90% of the annual budgeted revenue. In the same time period in 2023 we were at 68.2% of budgeted revenue. Fine and fee collections are highly dependent on trends in traffic citations and the Court's fine and fee collection approach. We continue to monitor.

• Interest on Investments. Interest receipts for the General Fund only are \$15,264 greater compared to 2023, and are more than triple the annual budget estimate. Interest earnings rose quickly in the second half of 2022 as interest rates rose. Investment interest rates continue to be strong, but due to the short-term nature of our allowed investments, this can change rapidly. Interest receipts depend on the maturity date of investments, type of investment and rate of interest. In 2023 we were at 318% of the budget estimate.

The chart below provides summary comparison information on revenues, expenditures and transfers for the quarter ending September 2024 versus September 2023.
