

## PVERC AGENDA FOR JANUARY 26, 2011

Announcements and upcoming events

Committee reports

Report on Weltner Park plans – Tom and Anne-Marie

Other

Information on upcoming meeting speakers

Guest speaker: Owen Buckley from Lane 4 Properties

Suggested starter questions are:

- 1.) What Sustainable materials and construction practices will be used in the renovation work?
- 2.) Will any of the tear down materials find a second use through agencies like Construction Materials Recycling?
- 3.) Do you have any plans to incorporate alternative energy (solar for example) in either project?
- 4.) Will your firm consult with any LEED certified architects in planning for the renovations?
- 5.) Will high efficiency lighting, heating and cooling technologies be considered in the planned upgrades?
- 6.) Are there any plans to better contain and manage storm water runoff?
- 7.) The Ripple Glass recycling option has been a boon for the folks of Prairie Village; are there any plans to expand beyond glass collection?
- 8.) Could recycling containers for plastic water and soft drink bottles find a home alongside the current trash receptacles in the public areas?
