June 8, 2015

To the Honorable Mayor, Members of the City Council and Citizens of the City of Prairie Village:

Kansas statutes require all cities to issue an annual report on its financial position and activity prepared in accordance with accounting principles generally accepted in the United States of America (GAAP) and audited in accordance with auditing standards generally accepted in the United States of America by a firm of licensed certified public accountants. Pursuant to the requirement, we hereby issue the comprehensive annual report (CAFR) of the City of Prairie Village for the fiscal year ended December 31, 2014.

The responsibility for accuracy, completeness, and fairness of the data presented, including all disclosures, rests with City management. City management is responsible for establishing and maintaining an internal control structure designed to earn the public's confidence and trust. The internal control structure is designed to provide reasonable, but not absolute, assurance that these objectives are met in the areas of: safeguarding assets against loss from unauthorized use or disposition, reliability of financial records, and convenience of access for preparing financial statements and maintaining accountability for assets. The City's accounting system is continually evaluated to assure adequacy of internal controls. The concept of reasonable assurance recognizes that (1) the cost of a control should not exceed the benefits likely to be derived; and (2) the valuation of costs and benefits requires estimates and judgments by management. We believe the report as presented, is accurate in all material aspects and is presented in a manner designed to fairly set forth the financial position of the City, on a Government-wide and Fund basis.

The City of Prairie Village's financial statements have been audited by Berberich Trahan & Co., P.A., a firm of licensed certified public accountants. The goal of the independent audit was to provide reasonable assurance that the financial statements of the City of Prairie Village for the fiscal year ended December 31, 2014, are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. The independent auditor concluded based on the audit, that there was a reasonable basis for rendering an unmodified opinion that the City of Prairie Village's financial statements for the fiscal year ended December 31, 2014, are fairly presented in conformity with GAAP. The independent auditor's report is presented as the first component of the financial section of this report.

Management's discussion and analysis immediately follows the independent auditor's report and provides a narrative introduction, overview and analysis of the basic financial statements. Management's discussion and analysis complements this letter of transmittal and should be read in conjunction with it.

Profile of the Government

The City of Prairie Village was originally the vision of the late J.C. Nichols. After successfully developing the Country Club Plaza area in Kansas City, Missouri, Mr. Nichols turned his company direction and development toward his native Johnson County just a few miles from the Plaza. He had visions of transforming the rolling hills into a well-planned community of beautiful homes and neighborhood shopping centers. Construction in Prairie Village started in 1941 and Mr. Nichols' dream became reality in 1949 when the City was named the best-planned community in America by the National Association of Home Builders.

The State of Kansas officially recognized Prairie Village as a city in 1951 with a total population of 1,360 and land area of one-half mile. By 1957, it had become a city of the first class. Now, it is one of 20 incorporated cities in Johnson County and has the sixth largest population. It is completely surrounded by other cities, sharing its eastern border, State Line Road, with Kansas City, Missouri. The City has a residential population of approximately 21,769 within its 6.7 square mile city limits.

The City operates under the Mayor-Council form of government with an appointed professional City Administrator. The City is divided into six wards with two councilpersons elected from each ward to serve staggered four-year terms. The Mayor is elected by the City at large for a four-year term. The City Administrator has responsibility for administration of all City programs and departments in accordance with policies and the annual budget adopted by the Council.

City government provides a wide range of services including: police protection and safety programs; construction and maintenance of streets, storm drainage and infrastructure; summer recreational activities and year-round cultural events; residential waste collection, recycling and composting services; and other general services for residents. Fire and health services are provided by the County; utilities are a service provided by the private sector.

The financial reporting entity includes all the funds of the City as legally defined. Component units are legally separate entities for which the primary government is financially accountable. The City has no component units.

In addition to general City activities, the Governing Body exercises or has the ability to exercise oversight of the revised Prairie Village Police Pension Plan Fund and the Supplemental Retirement Plan Fund; therefore, these activities are included in the report.

Local Economy

The City is located in the Kansas City metropolitan area and is considered one of the most desirable suburban communities in the region. The City is conveniently located between the Kansas City, Missouri business/industrial center and the southern Johnson County business districts. The area has experienced steady economic growth during the past two decades. The cyclical declines in the national economy over the last ten years have had a moderate affect on the City's economic growth.

Although the City is fully-developed and land-locked, the value of tangible property in Prairie Village has been maintained over the past ten years. In 2011 the City created two Community Improvement Districts (CIDs) that have had a positive impact on the local economy. The positive economic environment has also enabled the City to maintain the same quality and level of services without increasing property taxes. The City continues to maintain a favorable financial outlook based on prudent financial practices.

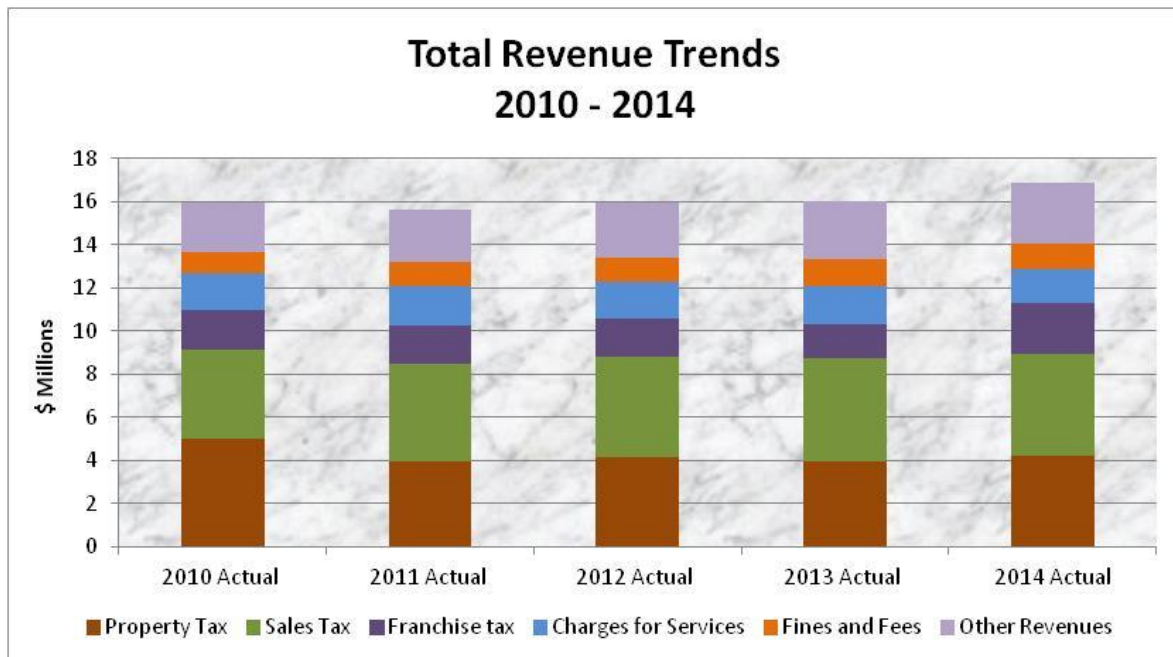

Based on current projections, the City will continue to be a desired location for those who work in the metropolitan area. The City is committed to a program for maintenance of the community and future redevelopment, which will contribute to the quality of life for all of the City's residents.

Long Range Financial Plan

In 2001, the Mayor appointed a committee of Council members to analyze financial trends and the economic condition of the community. The committee established a long range financial plan which is used to develop the City's annual budget. In addition, the City engaged consultants in 2005 to prepare a financial analysis to include recommendations for changes that would stabilize the population and revenue base. The City Council adopted the "Village Vision" document in May 2007 and will use this document to guide them in strategic planning efforts to insure the viability of this community for the future.

The City maintains a five-year Capital Infrastructure Program which serves as its planning document to ensure its facilities and infrastructure are well maintained and operating in peak condition. Projects are identified by name, cost and funding sources (property taxes, reserves, bonding, assessments, state/federal funding or other). The City also funds its equipment purchases through its budgetary process annually. This ensures that when a piece of equipment is scheduled to be replaced, a majority (if not all) of the funding is available for the purchase of the equipment. This allows the City to stabilize the impact on property tax revenues by building the required amount over a period of time.

The following graph compares the City's revenue sources from 2010 through 2014.

2014 Major Initiatives

As a part of the preparation for the 2014 annual budget, the following priorities were established and achieved by the City Council:

- ❖ Maintain high quality services and programs
- ❖ Maintain quality streets, parks and infrastructure
- ❖ Continue strong financial position
- ❖ Maintain Aaa bond rating
- ❖ Reduce reliance on fund balance and reserves
- ❖ Be mindful of tax burden

Prairie Village is a desirable community in which to live because of its location, the quality of infrastructure and housing maintenance, the school system, and its sense of community, which pervades the services provided to residents. This prevailing climate has created a gradual change, which has helped maintain property values and is transforming the landlocked, fully developed, and aging City into a community which continues to experience improvement and redevelopment of residential and commercial property.

2014 Relevant Financial Policies

During the budget process, the Governing Body directed staff to maintain a minimum unassigned General Fund reserve balance equivalent to 25% of General Fund revenues to provide working capital between semi-annual property tax settlements. The City needs sufficient cash reserves to avoid short-term borrowing to finance operations. The City has unspendable or restricted fund balances for deferrals, prepaid items, and other legal obligations. The City also reports the committed and assigned fund balances for special purposes.

The primary goal of the City's investment policy is to ensure the safety of the principal invested. Cash temporarily idle during the year is invested primarily in certificates of deposit, obligations of the U.S. Treasury, Kansas Municipal Investment Pool, Kansas GO Bonds and Repurchase Agreements. Cash balances from all City funds are pooled into an investment fund and investment income is distributed on a monthly basis based on month end balances. A cash flow analysis is utilized and staggered in a way to meet projected liquidity needs.

Capital financing for major improvements is provided for during the budget or general obligation bonds.

The City of Prairie Village has financial management policies that allow for the planning of adequate funding of services desired by the public, to manage the City finances wisely, and to carefully account for public funds.

In addition to the major initiatives discussed above, the 2014 budget reflected several financial policies the City has established.

- ❖ Continue to strive for financial transparency by implementing a Transparent PV link on the City website which gives citizens easy access to City documents
- ❖ Conduct a thorough review of all budgeted items at the staff level
- ❖ Provide a revenue structure that pays the full cost of current services, and can be responsive to economic conditions
- ❖ Maintain financial accounting and budget practices that provide full disclosure of the City's financial affairs
- ❖ Assess and plan for technology needs
- ❖ Evaluate existing City services to determine the need and efficiency of such services

Other Information

Awards and acknowledgements

The Government Finance Officers Association (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the City for its CAFR for the fiscal year ended December 31, 2013. This was the twenty-eighth consecutive year the government received this prestigious award. In order to be awarded a Certificate of Achievement, the government must publish an easily readable and efficiently organized CAFR. This report satisfied both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current CAFR continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

The City also received the GFOA's Award for Distinguished Budget Presentation for its annual appropriated budget for the fiscal year beginning January 1, 2014. This is the twenty-sixth year the City has received this prestigious award. In order to qualify for the Distinguished Budget Presentation Award, the City's budget document was judged to be proficient in several categories including policy documentation, financial planning, and organizational guidance.

In addition, the City received the GFOA's Award for Outstanding Achievement in Popular Annual Financial Reporting for its PAFR for the fiscal year ended December 31, 2013. This is the second year the City has received this prestigious award. In order to qualify to be awarded an Outstanding Achievement, the government must publish a financial report specifically designed to meet the needs of interested parties who may be unable or unwilling to use traditional financial reports. An Outstanding Achievement is valid for a period of one year only.

The preparation of the CAFR on a timely basis was made possible by the dedicated service of City staff. Those individuals who contributed to the preparation of this report have our sincere appreciation for their efforts.

Although City staff accomplished the preparation and documentation of this report, it is the leadership and support of the Governing Body that provides the policy direction and financial integrity on which the report is based.

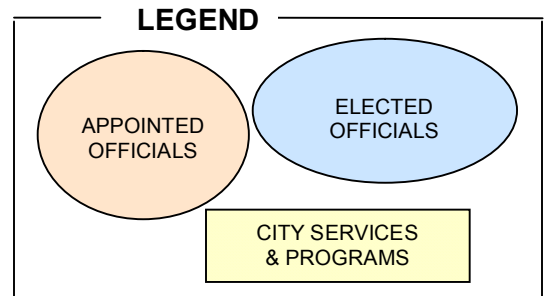

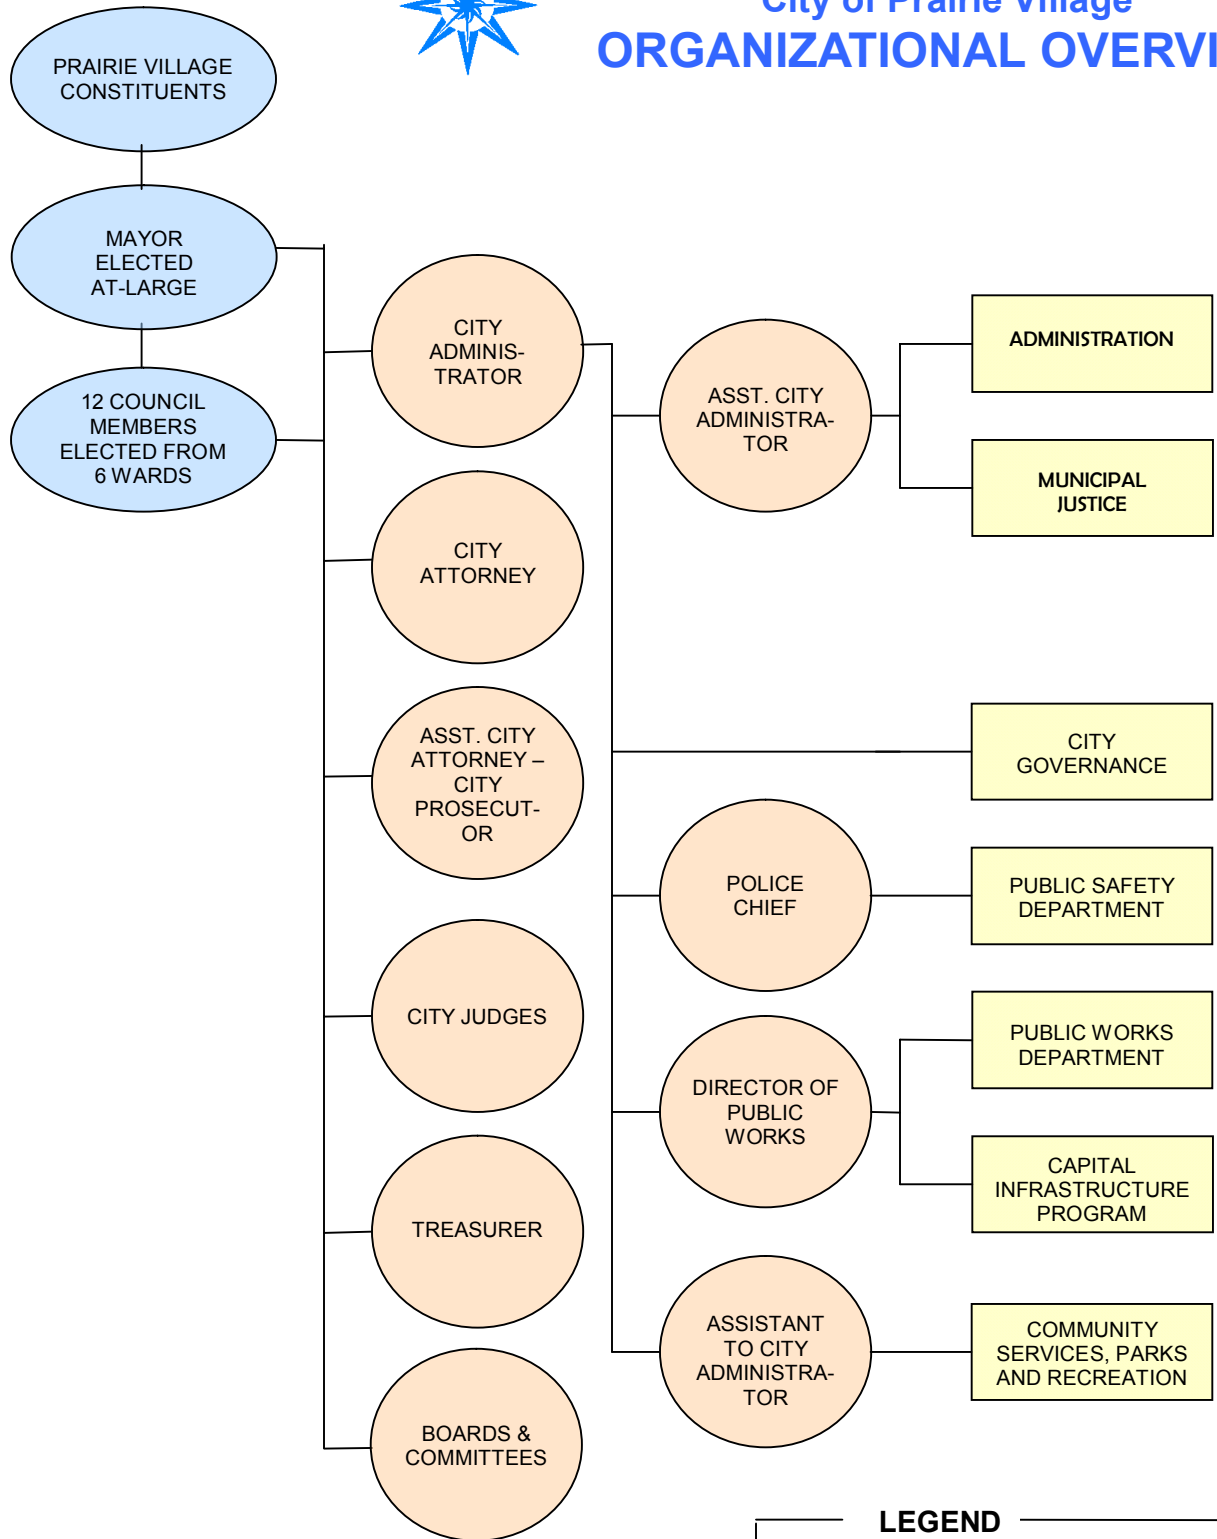

Respectfully submitted,

A handwritten signature in black ink that reads "Lisa Santa Maria". The signature is written in a cursive, flowing style.

INDEPENDENT AUDITOR'S REPORT

The Honorable Mayor and
City Council
City of Prairie Village, Kansas

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the City of Prairie Village, Kansas (the City), as of and for the year ended December 31, 2014, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the *Kansas Municipal Audit and Accounting Guide*. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the City as of December 31, 2014, and the respective changes in financial position and the respective budgetary comparisons for the general fund and major special revenue funds for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that Management's Discussion and Analysis on pages 3 - 11, and the required schedules for the Prairie Village, Kansas Police Department Retirement Plan and for the other postemployment benefits on pages 64 - 68 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary and Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The combining nonmajor fund financial statements and schedules are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining nonmajor fund financial statements and schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the accompanying supplementary information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on them.

Berberich Trahan & Co., P.A.

CITY OF PRAIRIE VILLAGE, KANSAS

MANAGEMENT'S DISCUSSION AND ANALYSIS

For the year ended December 31, 2014

This discussion and analysis of the City of Prairie Village's financial performance provides an overview of the City's financial activities for the fiscal year ended December 31, 2014. It should be read in conjunction with the letter of transmittal on page I, the basic financial statements, which begin on page 12, and the accompanying notes to those financial statements.

Financial Highlights

- The City Council approved a \$33 million budget and did not have a property tax increase.
- The City's total assessed valuation increased to \$291,970,272 from \$285,138,296 in 2013, a 2.4% increase.
- The average home sale price in Prairie Village increased 2.95% from 2013 to 2014. Of the 9,720 households in Prairie Village, 78.5% are owned, 18.6% are rented and 2.9% are not currently occupied. And, The City was named the 5th Best Suburb in America by *Business Insider Magazine*.
- The composition of the City's property tax base is 14% commercial and 86% residential.
- As a result of this fiscal year's activity, the City's combined net position increased by \$642,589, the majority of which is due to an increase in capital assets and a decrease in current and long-term liabilities.
- The 2014 average unemployment rate in Prairie Village was 3.3% (Kansas avg. was 4.2%).

The Basic Financial Statements

This annual report consists of a series of financial statements. The basic financial statements include the government-wide financial statements and the fund financial statements. The notes to the financial statements follow the statements and are essential for the reader's understanding of the financial statements. The remaining statements provide other supplementary information for the reader.

Government-wide financial statements. The government-wide financial statements have been prepared using the accrual basis of accounting. The focus of these statements is the City's long-term financial picture. All of the fiscal year's revenues and expenses have been reported, regardless of when cash is received or disbursed.

The *Statement of Net Position* reports all of the City's assets and liabilities. Net position, which is the difference between those assets and liabilities, is an important measure of the City's overall financial health. Changes in net position over time help the reader determine whether the City's financial health is improving or deteriorating.

The *Statement of Activities* explains how revenues and expenses of the City affected net position during the fiscal year. A unique feature of this statement is how it reports the revenues and expenses of specific programs, and how much of those programs were supported by general revenues such as taxes.

In preparing the government-wide financial statements, management has considered all separate legal entities in which the City could be considered financially accountable for. There are no component units which the City is considered to be financially accountable.

Fund financial statements. A fund is a separate entity with a set of self-balancing accounts for the purpose of carrying on specific activities or attaining certain objectives in accordance with regulations, restrictions or limitations. The fund financial statements provide information about the most significant funds, not the City as a whole. The City uses two types of funds to manage its resources: *governmental funds* and *fiduciary funds*.

Governmental funds. All of the City's basic services are reported in governmental funds, which are prepared using the modified accrual basis of accounting. Under the modified basis, revenues are recognized when they become measurable and available, while expenditures are recognized when the related liability is incurred. An exception to this is long-term debt and similar items, which are recorded when due. The focus of these reports is on the short-term financial resources available to the specific function rather than the City as a whole. The reconciliation at the end of the fund financial statements details the relationship between the two types of financial statements.

Fiduciary funds. Resources held by the City for the benefit of a third party are reported in fiduciary funds. Although these resources are not available for operations, and therefore not presented in the government-wide financial statements, the City is responsible for ensuring that the assets reported in these funds are used for their intended purposes.

Notes to the financial statements. The notes to the financial statements are an integral part of the basic financial statements, containing valuable information necessary for gaining a better understanding of the City's financial statements.

Other information. In addition to the basic financial statements and notes described above, required supplementary information regarding the City's funding of its Police Pension Plan has been included to give the reader further insight into the City's pension plan results. The Statistical Section provides statistical data about the City.

Analysis of the Government-wide Financial Statements

Net Position. The combined net position of the City as of December 31 was:

	<u>2013</u>	<u>2014</u>	<u>Percentage Change</u>
Current and other assets	\$25,561,701	\$24,913,569	-2.54%
Capital assets	71,875,139	71,362,867	-0.71%
Total assets	<u>\$97,436,840</u>	<u>\$96,276,436</u>	-1.19%
Long-term liabilities	\$5,451,581	\$4,714,828	-13.51%
Current liabilities	2,116,460	1,037,328	-50.99%
Other liabilities	1,344,319	1,224,053	-8.95%
Deferred inflows of resources	8,588,091	8,721,249	1.55%
Total liabilities and deferred inflows of resources	<u>\$17,500,451</u>	<u>\$15,697,458</u>	-10.30%
Net position:			
Net investment in capital assets	\$64,573,343	\$65,944,703	2.12%
Restricted	3,870,795	1,283,840	-66.83%
Unrestricted	11,492,251	13,350,435	16.17%
Total net position	<u>\$79,936,389</u>	<u>\$80,578,978</u>	0.80%
Total liabilities and deferred inflows of resources & net position	<u>\$97,436,840</u>	<u>\$96,276,436</u>	-1.19%

The City's combined net position increased by \$642,589 or 0.8% from 2013 to 2014. The majority of that increase was due to an increase in capital assets and a decrease in current and long-term liabilities. The change in net position as a percentage of assets is a good indicator of the government's financial position. The positive ratio of 0.8% indicates the City's financial condition has improved.

The City's total net position consists of the following three components:

1. Net investment in capital assets. The largest portion of the City's net position (\$65,944,703) represents its investment in capital assets (e.g. land structures and improvements, infrastructure, and equipment); less any related debt used to acquire those assets that is still outstanding. The City uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending.
2. Restricted net position. The City's restricted net position at year-end was \$1,283,840. Asset restrictions are primarily due to external restrictions imposed by State statutes.
3. Unrestricted net position. The City's unrestricted net position is \$13,350,435.

Statement of Activities. The table below shows the condensed revenues, expenses and changes in net position for 2013 and 2014.

	<u>2013</u>	<u>2014</u>	<u>Change</u>
REVENUES			
Program revenues			
Charges for services	\$ 6,772,710	\$ 6,582,502	-2.81%
Operating grants and contributions	5,275	6,117	15.96%
Capital grants and contributions	643,633	675,222	4.91%
General revenues:			
Property taxes	5,495,129	5,535,425	0.73%
Sales and use taxes	6,671,852	6,705,394	0.50%
Other taxes	2,231,361	3,058,848	37.08%
Other revenues	1,189,267	1,370,228	15.22%
Total revenues	<u>\$ 23,009,227</u>	<u>\$ 23,933,736</u>	<u>4.02%</u>
EXPENSES			
Urban management and planning	\$ 4,775,294	\$ 5,610,397	17.49%
Public works	8,957,601	10,350,103	15.55%
Public safety	5,763,055	5,705,184	-1.00%
Municipal justice	427,211	403,023	-5.66%
Leisure, recreation and education	679,215	1,120,168	64.92%
Interest on long-term debt	137,982	102,272	-25.88%
Total expenses	<u>\$ 20,740,358</u>	<u>\$ 23,291,147</u>	<u>12.30%</u>
Increase (decrease) in net position	\$ 2,268,869	\$ 642,589	-71.68%
Prior period adjustment	(89,179)	-	
Net position, January 1	77,756,699	79,936,389	2.80%
Net position, December 31	<u>\$ 79,936,389</u>	<u>\$ 80,578,978</u>	<u>0.80%</u>

Overall, total revenues increased by 4.02%. The increase is mostly due to a change in the distribution of electric franchise fees from a semi-annual distribution to a monthly distribution. Franchise fees include electric, gas, telephone, cable and open source video companies. The fee is 5% of gross receipts as defined and permitted by state statutes.

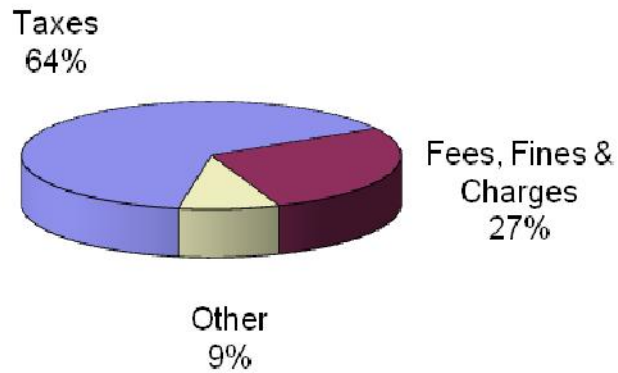

Tax source revenues (property, sales/use and franchise) continue to account for a majority of the City's revenues. Tax source revenues account for 64.0% of total revenues in 2014 compared with 63.0% in 2013. Sales tax and use taxes increased 0.5% and property taxes increased 0.73%. Other taxes increased 37.08% and are mostly made up of franchise fees.

Other revenues increased 15.22% and include investment earnings and any unrealized gains and losses associated with those investments. Actual interest earnings increased during 2014. The gain on disposal of assets increased slightly in 2014 and is included in other revenues.

Total expenses for 2014 were higher when compared with 2013, increasing 12.3%. Interest on long-term debt decreased in 2014 because of the general obligation refunding and improvement bonds issued in 2011. Also, Urban Management and Planning expenses increased as a result of significant activity at the two Community Improvement Districts and an increase in contract services for City related legal fees. The increase in Public Works reflects an increase in utilities, commodities and capital outlay. And, the 64.92% increase in Leisure, recreation and education spending reflects an increase in capital outlay.

As illustrated by the following graphs, 64% of the City's revenues are tax-related. Another 27% are directly related to the City's solid waste management assessments, stormwater assessments and public safety agreement with the City of Mission Hills.

Sources of Revenue - 2014

The second graph illustrates that public works expenses, which include the depreciation of City infrastructure assets, comprise the largest use of resources.

Expenses by Function - 2014

The net cost of each program is an important indicator of the financial burden placed on revenues, primarily tax sources. As shown below, \$16 million of the cost of services was paid by the City's tax payers.

Function/Programs	Total Cost of Services			Net Cost of Services		
	2013	2014	% Chg	2013	2014	% Chg
Governmental activities:						
Urban management and planning	\$ 4,775,294	\$ 5,610,397	17.5%	\$ 2,896,625	\$ 3,622,311	25.1%
Public works	8,957,601	10,350,103	15.5%	3,017,165	8,035,818	166.3%
Public safety	5,763,055	5,705,184	-1.0%	6,595,117	3,170,264	-51.9%
Municipal justice	427,211	403,023	-5.7%	575,812	400,818	-30.4%
Leisure and recreation	679,215	1,120,168	64.9%	96,039	695,823	624.5%
Interest on long-term debt	137,982	102,272	-25.9%	137,982	102,272	-25.9%
Total governmental activities	\$ 20,740,358	\$ 23,291,147	12.3%	\$ 13,318,740	\$ 16,027,306	20.3%

Additional information about program and general revenues may be found on the Statement of Activities located on page 13.

Analysis of the Fund Financial Statements

Fund Financial Statements. A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City of Prairie Village, like other state and local governments, used fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

General Fund. Fund balance decreased 0.92% in the General Fund as a result of planned transfers. The General Fund includes non-budgeted funds for Equipment Reserve, Risk Management Reserve and Economic Development Reserve. Additional information regarding the fund balance may be found on the Statement of Revenues, Expenditures and Changes in Fund Balances – Budget and Actual-Budgetary Basis – General Fund located on pages 20 - 21.

Solid Waste Management Fund. The Solid Waste Management Fund is used for solid waste collection, recycling, composting services and large item pick up as well as a portion of the City's administrative cost including personal services and supplies. The City collects the Solid Waste fee through a special assessment on property tax bills. The fund balance increased 32.55% as a result of a rate increase from the solid waste contractor, and the City's policy to maintain two months' worth of expenditures as a reserve.

Bond and Interest Fund. The City issued general obligation refunding and improvement bonds in 2011 for street infrastructure improvement project expenditures. The City's outstanding debt will be paid off in 2021, provided the City does not issue any new debt or restructure current debt. The outstanding general obligation bonds at December 31, 2014 totaled \$5,350,000. This balance represents a 26% decrease over the 2013 balance, and follows the Bond and Interest payment schedule that was created when the bonds were issued.

Stormwater Fund. This fund was established at the end of 2008. It is used to account for the stormwater utility fee and the related stormwater management activities. The stormwater fee appeared on the December 2012 tax bills, the receipts from which are used to fund 2014 operations. All of the funds collected were used in stormwater management activities. The fund balance at December 31, 2014 totaled \$320,111. This balance represents a 22% decrease over the 2013 balance due to an increase in the stormwater program and compliance with NPDES guidelines.

Capital Projects Fund. The City's Capital Projects Fund accounts for major infrastructure improvement project expenditures. The 11.13% decrease in fund balance is a result of 25% decrease in infrastructure spending which were primarily street improvements and reflects the end of the improvement bond funds that were issued in 2011.

General Fund Budget

The legally adopted budget for the General Fund was not amended by the City Council during 2014. Departments within the City are allowed to transfer budget between line items within programs and between programs within the department. In addition, allocations of contingency budget are recorded as a budget transfer to the affected program. As a result of these budget transfers, the original budget and the final budget in some programs may not be the same.

The following revenue and expenditure categories experienced significant differences between the final budget amount and the actual amount. The explanation of the difference is also included.

Category	Explanation
Franchise Fees	Franchise fees increased due to a change in the distribution of Kansas City Power and Light franchise fees from semi-annual to monthly. AT&T franchise fees have been steadily declining since 2009 which is a result in part of the replacement of land lines with cell phones. Franchise fees are also affected by "internet services" which do not contribute to this revenue source.
Charges for services	Charges for services decreased due to a change in the way vehicle maintenance costs are accounted for. This category also includes the fuel center which had a decline in revenue due to fuel costs.
Fine and Forfeitures	Fine and forfeiture revenue increased as a result of an increase in traffic violations.
Interest Earnings	Interest earnings are netted against investment unrealized gains and losses. In 2014 there was an unrealized loss on investments that was more than the earnings.
Recreation Fees	Recreation fees decreased as a result of decreased pool revenue. The pool season is during the summer months only and is affected by summer temperatures and other area surrounding pools.
Mayor and Council	The budget includes funding for consultants that may be needed by the Council during the year. In 2014, the Council did not utilize the full budget for consultants. In addition, the Council did not utilize the full budget for training and conferences.
Legal Services	The amount of legal expenditures depends on the contracts reviewed; ordinances drafted, law suits, etc. In 2014 the City experienced an increase in legal costs due to a number of law suits. These services are provided at an hourly rate.
City Clerk	In 2014, the City Clerk had lower than budgeted personal services costs due to a turn-over in staff.
Public Works Administration	In 2014 the budget for contract services was not fully utilized. Included in contract services are the City Engineer costs.
Public Works Streets & Drains	In 2014, the budget for contract services and commodities was higher than budgeted due to an increase in street and drainage repairs.
Crime Prevention	Personal services, contract services and commodities were lower than budgeted due to a movement of personnel and unfilled positions in 2014.
Patrol	Personal services, contract services and commodities were lower than budgeted due to a movement of personnel and unfilled positions in 2014.
Investigations	Personal services, contract services and commodities were lower than budgeted due to a movement of personnel and unfilled positions in 2014.
Off-Duty Contractual	This program depends on assignments and will vary from year to year.
Traffic	Personal services, contract services and commodities were lower than budgeted due to a movement of personnel and unfilled positions in 2014.
Prosecutor	In 2014 there were not as many appeals as were budgeted for.

Capital Assets and Long-Term Debt Activity

Capital Assets. As presented below, the total amount invested in capital assets (net of accumulated depreciation) by the City at December 31, 2014 was \$71.4 million. Capital assets decreased 0.71% from 2013.

NETWORK	<u>2013</u>	<u>2014</u>	<u>% Chg</u>
Land	\$ 13,861,866	\$ 13,861,866	0.00%
Buildings	3,504,676	3,341,181	-4.67%
Improvements other than buildings	827,897	791,114	-4.44%
Furniture and equipment	1,854,730	2,108,564	13.69%
Infrastructure	44,454,885	43,832,262	-1.40%
Construction in progress	<u>7,371,085</u>	<u>7,427,880</u>	0.77%
Total	<u>\$ 71,875,139</u>	<u>\$ 71,362,867</u>	-0.71%

Improvements other than buildings decreased due to continued depreciation of these assets. Furniture and equipment increased due to the addition of furniture and equipment. Infrastructure decreased due to projects open at the end of 2013. Construction in progress increased because many of the 2014 projects were not completed until early 2015. In conformity with GASB 34, Infrastructure completed in the current year has been capitalized. Infrastructure assets not completed by the year-end have been reported as construction in progress.

Additional information regarding the City's capital assets can be found in Note I, as well as Note 5.

Long-term debt activity. As of December 31, 2014, the City had \$5,350,000 of outstanding general obligation bonds. Of the balance outstanding, 55% will be paid off within the next five years.

Attesting to the City's favorable economic conditions and sound financial management, Prairie Villages' general obligation bond rating remains at Aaa, with a stable outlook.

Additional information regarding the City's long-term debt activity can be found in Note 7.

Requests for Information

This report is intended to give the reader a general overview of the City's finances. Questions about information contained in this report or requests for additional information should be directed to the Finance Director, 7700 Mission Rd, Prairie Village, Kansas 66208.

CITY OF PRAIRIE VILLAGE, KANSAS

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES
AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS
TO THE STATEMENT OF ACTIVITIES

Year Ended December 31, 2014

Amounts reported for governmental activities in the statement of activities are different because:

Net change in fund balances - total governmental funds.	\$ (694,744)
Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense.	(512,272)
The issuance of long-term debt (e.g., bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of premiums, discounts and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. This amount is the net effect of these differences in the treatment of long-term debt and related items.	1,870,000
Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds.	<u>(20,395)</u>
Change in net position of governmental activities	<u><u>\$ 642,589</u></u>

See accompanying notes to basic financial statements.

CITY OF PRAIRIE VILLAGE, KANSAS
NOTES TO BASIC FINANCIAL STATEMENTS

December 31, 2014

1 - Summary of Significant Accounting Policies

Reporting Entity

The City of Prairie Village, Kansas (the City) is located in Johnson County and was incorporated in 1951. The City is a city of the first class and operates under a Mayor-Council form of government, providing services to its approximately 22,000 residents in many areas, including urban management and planning; public works; public safety; municipal justice; and leisure and recreation.

Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the primary government. All nonfiduciary activities of the City are governmental activities.

The statement of activities demonstrates the degree to which the direct expenses of a given function are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. Program revenues include (1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements.

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

CITY OF PRAIRIE VILLAGE, KANSAS

NOTES TO BASIC FINANCIAL STATEMENTS
(Continued)

1 - Summary of Significant Accounting Policies (Continued)

Measurement Focus, Basis of Accounting, and Financial Statement Presentation (Continued)

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Each fund is considered to be a separate accounting entity, accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund balance, revenues and expenditures. Governmental resources are allocated to and accounted for within individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled.

Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the City considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences, and claims and judgments, are recorded only when payment is due.

In applying the susceptible to accrual concept to intergovernmental revenues, the legal and contractual requirements of the numerous individual programs are used as guidance. There are, however, essentially two types of these revenues. In one, monies must be expended for the specific purpose or project before any amounts will be paid to the City; therefore, revenues are recognized based upon the expenditures recorded. In the other, monies are virtually unrestricted as to purpose of expenditure and are usually revocable only for failure to comply with prescribed requirements. These resources are reflected as revenues at the time of receipt, or earlier if the susceptible to accrual criteria are met.

Property, sales, utility franchise taxes, interest associated with the current fiscal period, and certain state and federal grants and entitlements are all considered to be susceptible to accrual and have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the City.

While property taxes receivable and special assessments receivable are shown on the balance sheet as current assets of the City, they are not recognized as revenue at year end because statutory provisions prohibit their use until the year for which they were raised and budgeted. Instead, they are offset by unavailable revenue accounts.

CITY OF PRAIRIE VILLAGE, KANSAS
NOTES TO BASIC FINANCIAL STATEMENTS
(Continued)

1 - Summary of Significant Accounting Policies (Continued)

Measurement Focus, Basis of Accounting, and Financial Statement Presentation (Continued)

The Pension Trust fund is reported using the economic resources measurement focus and the accrual basis of accounting.

The City reports the following major governmental funds:

The *General Fund* is the government's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The *Solid Waste Management Fund* is used to account for the operation of the City's solid waste management system, which provides for the collection, storage, and transportation of solid waste in a manner which ensures protection of the health, safety, and welfare of City residents and is funded by the solid waste management fee, a special assessment on all properties in the City based on square feet of impervious area.

The *Bond and Interest Fund* is used to account for the accumulation of resources and payment of the City's long-term debt.

The *Stormwater Fund* is used to account for the operation of the City's stormwater management program and is funded by the stormwater utility fee, a special assessment on all properties in the City based on square feet of impervious area.

The *Capital Projects Fund* accounts for major infrastructure project expenditures.

Additionally the City reports the following fiduciary fund type:

Pension Trust Fund, which reports the Revised Prairie Village Police Pension Fund, is used to accumulate the resources for pension benefit payments to qualified public safety employees.

As a general rule the effect of interfund activity has been eliminated from the government-wide financial statements.

CITY OF PRAIRIE VILLAGE, KANSAS

NOTES TO BASIC FINANCIAL STATEMENTS
(Continued)

1 - Summary of Significant Accounting Policies (Continued)

Measurement Focus, Basis of Accounting, and Financial Statement Presentation (Continued)

Amounts reported as program revenues include 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions including special assessments. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all taxes.

When both restricted and unrestricted resources are available for use, it is the City's policy to use restricted resources first, then unrestricted resources as they are needed.

Deposits and Investments

The City's cash and investments are considered to be demand deposits, time deposits, and cash held by the State of Kansas Municipal Investment Pool.

Investments are reported in the accompanying financial statements at fair value, except for certain certificates of deposit and investment contracts that are reported at cost because they are nontransferable, with terms unaffected by changes in market interest rates.

Changes in fair value that occur during the fiscal year are recognized as investment revenue reported for that fiscal year. Investment revenue includes interest earnings, changes in fair value, and any gains or losses realized upon the liquidation, maturity, or sale of investments.

Receivables and Payables

Receivables are reported on the government-wide financial statements net of an allowance for uncollectibles. The largest allowance for uncollectibles is for property taxes, equal to 1.67% of the fiscal year's total property taxes assessment.

Tax statements are mailed November 1 each year and may be paid in full or one-half on or before December 20 with the remaining one-half due on or before May 10 of the following year. Taxes that are unpaid on the due dates are considered delinquent and accrue interest at a per annum rate established by State law until paid or until the property is sold for taxes. Real estate bearing unpaid taxes is advertised for sale on or before August 1 of each year and is sold by the County for taxes and all legal charges on the first Tuesday in September. Properties that are sold and not redeemed within two years after the tax sale are subject to foreclosure sale, except homestead properties which are subject to foreclosure sale after three years.

CITY OF PRAIRIE VILLAGE, KANSAS

NOTES TO BASIC FINANCIAL STATEMENTS

(Continued)

1 - Summary of Significant Accounting Policies (Continued)

Receivables and Payables (Continued)

Personal taxes are due and may be paid in the same manner as real estate taxes, with the same interest applying to delinquencies. If personal taxes are not paid when due, and after written notice, warrants are issued and placed in the hands of the sheriff for collection. If not paid on or before October 1, legal judgment is entered and the delinquent tax becomes a lien on the property. Unless renewed, a non-enforced lien expires five years after it is entered.

Motor vehicle taxes are collected periodically throughout the year concurrently with the renewal of motor vehicle tags based upon the value of such vehicles. Such tax receipts are distributed to all taxing subdivisions, including the State of Kansas, in proportion to the number of mills levied within each taxpayer's tax levy unit.

The City may levy taxes in accordance with the requirements of its adopted budget. Property tax levies are based on the adopted budget of the City and the assessed valuations provided by the County appraiser.

The City also assesses fees for the solid waste and stormwater funds that are collected through the tax statements mailed on November 1 each year.

Governmental funds report unavailable revenue in connection with receivables for revenues that are not considered to be available to liquidate liabilities of the current period. Governmental funds also defer revenue recognition in connection with resources that have been received, but not yet earned. At the end of the current fiscal year, the governmental funds unavailable revenue is reported as follows:

General fund property taxes receivable	\$ 5,342,553
Solid waste management fund other assessments receivable	1,454,988
Stormwater fund other assessments receivable	1,575,264
Bond and interest property taxes receivable	<u>348,444</u>
	<u>\$ 8,721,249</u>

CITY OF PRAIRIE VILLAGE, KANSAS

NOTES TO BASIC FINANCIAL STATEMENTS
(Continued)

1 - Summary of Significant Accounting Policies (Continued)

Prepaid Items

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements. Prepaid items of governmental funds are recorded as expenditures when consumed rather than when purchased.

Restricted Assets

Certain cash and investments are classified as restricted assets on the statement of net position and balance sheet because their use is limited to repay Municipal Court bonds, fire/explosion cleanup bonds or employee Section 125 plan expenses.

Capital Assets

Capital assets, which include land, buildings, improvements, equipment, and infrastructure assets (streets, curbs, sidewalks, drainage systems, etc.), and construction in progress are reported in the government-wide financial statements as assets. Capital assets are defined by the City as assets with an initial, individual cost of more than \$ 5,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized. Preservation costs, which are expected to extend the life of the asset, are capitalized.

Capital assets, excluding land and infrastructure assets, are depreciated using the straight-line method and the estimated asset useful lives listed below. Depreciation expense for infrastructure assets is calculated using a composite rate based on the estimated historical cost and estimated useful lives as follows:

Buildings	40 years
Improvements other than buildings	15 years
Vehicles	2 - 12 years
Office equipment	3 - 25 years
Field equipment	5 - 20 years
Infrastructure	20 - 40 years

CITY OF PRAIRIE VILLAGE, KANSAS

NOTES TO BASIC FINANCIAL STATEMENTS
(Continued)

1 - Summary of Significant Accounting Policies (Continued)

Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to a future period(s) and so will *not* be recognized as an outflow of resources (expense/expenditure) until then.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to a future period(s) and so will *not* be recognized as an inflow of resources (revenue) until that time. The City has only one type of item that qualifies for reporting in this category. Accordingly, the item, *unavailable revenue*, is reported in the governmental funds balance sheet and the governmental activities in the government-wide statement of net position. The governmental funds and governmental activities report unavailable revenues from two sources: property taxes and other assessments. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available.

Compensated Absences

Full-time City employees earn vacation leave based upon length of service, and unused vacation days can be carried forward to future years with certain limitations. Sick leave is earned at a rate of one day per month of employment, with a total accumulation limited to 1,120 hours or 142 days.

All vested or accumulated vacation and scheduled holiday leave is accrued when incurred in the government-wide financial statements. A liability for these amounts is reported in governmental funds only if they have matured, for example, as a result of employee resignations and retirements. The City estimates that the entire compensated absence liability, as of December 31, 2014, will be due within one year.

CITY OF PRAIRIE VILLAGE, KANSAS

NOTES TO BASIC FINANCIAL STATEMENTS
(Continued)

1 - Summary of Significant Accounting Policies (Continued)

Long-term Obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities. Bond premiums and discounts are amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

Fund Balances

As prescribed by GASB Statement No. 54, governmental funds report fund balance classifications based primarily on the extent to which the City is bound to honor constraints on the specific purposes for which amounts in the funds can be spent. As of December 31, 2014, fund balances for governmental funds are made up of the following:

Nonspendable fund balance – includes amounts that are (a) not in spendable form, or (b) legally or contractually required to be maintained intact. The “not in spendable form” criterion includes items that are not expected to be converted to cash, for example: inventories, prepaid amounts, and long-term notes receivable.

Restricted fund balance – includes amounts that can be spent only for the specific purposes stipulated by external resource providers, constitutionally or through enabling legislation. Restrictions may effectively be changed or lifted only with the consent of resource providers.

Committed fund balance – includes amounts that can only be used for specific purposes determined by a formal action, an ordinance, of the City’s highest level of decision-making authority, the City Council. Commitments may be changed or lifted only by the City Council taking the same formal action, an ordinance, that imposed the constraint originally.

CITY OF PRAIRIE VILLAGE, KANSAS

NOTES TO BASIC FINANCIAL STATEMENTS
(Continued)

1 - Summary of Significant Accounting Policies (Continued)

Fund Balances (Continued)

Assigned fund balance – includes amounts intended to be used by the City for specific purposes that are neither restricted nor committed. The City Council authorizes by resolution the City Administrator to assign fund balance. Unlike commitments, assignments generally only exist temporarily. In other words, an additional action does not normally have to be taken for the removal of the assignment.

Unassigned fund balance – is the residual classification for the General Fund and includes all amounts not contained in other classifications. Unassigned amounts are technically available for any purpose.

In circumstances when an expenditure is made for a purpose for which amounts are available in multiple fund balance classifications, fund balance is depleted in the order of restricted, committed, assigned, and unassigned.

CITY OF PRAIRIE VILLAGE, KANSAS

NOTES TO BASIC FINANCIAL STATEMENTS

Net Position

In the government-wide financial statements, equity is displayed in three components as follows:

Net Investment in Capital Assets – This consists of capital assets, net of accumulated depreciation, less the outstanding balances of any bonds, notes or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.

Restricted – This consists of net position that is legally restricted by outside parties or by law through constitutional provisions or enabling legislation. Restricted net position includes \$ 333,033 for enabling legislation.

Unrestricted – This consists of net assets that do not meet the definition of “restricted” or “net investment in capital assets.”

CITY OF PRAIRIE VILLAGE, KANSAS

NOTES TO BASIC FINANCIAL STATEMENTS
(Continued)

1 - Summary of Significant Accounting Policies (Continued)

Use of Estimates

The preparation of financial statement in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Pending Governmental Accounting Standards Board Statements

At December 31, 2014, the Governmental Accounting Standards Board (GASB) had issued several statements not yet implemented by the City. The statements that might impact the City are as follows:

GASB Statement No. 68, *Accounting and Financial Reporting for Pensions – an amendment of GASB Statement No. 27*, was issued in June 2012. The objective of this statement is to improve the decision-usefulness of information in employer and governmental nonemployer contributing entity financial reports and to enhance its value for assessing accountability and interperiod measure of pension expense. This statement enhances decision-usefulness and accountability through new note disclosures and required supplementary information. This statement also improves the consistency and transparency of the information reported by employers and governmental nonemployer contributing entities about pension transactions. Additionally, this statement improves the comparability of reported pension information through changes related to the attribution method used to determine service cost and the total pension liability, requirements for immediate recognition in pension expense of certain items, and the establishment of standardized expense recognition periods for amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions. The provisions of this statement are effective for periods beginning after June 15, 2014.

CITY OF PRAIRIE VILLAGE, KANSAS

NOTES TO BASIC FINANCIAL STATEMENTS
(Continued)

1 - Summary of Significant Accounting Policies (Continued)

Pending Governmental Accounting Standards Board Statements (Continued)

GASB Statement No. 71, *Pension Transition for Contributions Made Subsequent to the Measurement Date – an Amendment of GASB Statement No. 68*, was issued in November 2013. The objective of this Statement is to address an issue regarding application of the transition provisions of Statement No. 68, *Accounting and Financial Reporting for Pensions*. The issue relates to amounts associated with contributions, if any, made by a state or local government employer or nonemployer contributing entity to a defined benefit pension plan after the measurement date of the government's beginning net pension liability. This Statement amends paragraph 137 of Statement 68 to require that, at transition, a government recognize a beginning deferred outflow of resources for its pension contributions, if any, made subsequent to the measurement date of the beginning net pension liability. Statement 68, as amended, continues to require that beginning balances for other deferred outflows of resources and deferred inflows of resources related to pensions be reported at transition only if it is practical to determine all such amounts. The provisions of this Statement are required to be applied simultaneously with the provisions of Statement 68.

GASB Statement No. 72, *Fair Value Measurement and Application*, was issued in February 2015. The objective of this statement is to address financial reporting issues related to fair value measurements. The statement provides guidance for determining a fair value measurement for financial reporting purposes and for applying fair value to certain investments and disclosures related to all fair value measurements. The provisions of this statement are effective for periods beginning after June 15, 2015.

2 - Reconciliation of Government-wide and Fund Financial Statements

Explanation of Certain Differences Between the Governmental Fund Balance Sheet and the Government-Wide Statement of Net Position

The governmental fund balance sheet includes a reconciliation between fund balance – total governmental funds and net position of governmental activities as reported in the government-wide statement of net position. One element of that reconciliation explains that “Long-term liabilities, including bonds payable, are not due and payable in the current period and therefore are not reported in the funds.” The details of this \$ (5,783,589) difference are as follows:

Bonds payable	\$ (5,350,000)
Less: Issuance premium	(68,164)
Accrued interest payable	(31,433)
Compensated absences	(312,328)
Other postemployment benefits	<u>(21,664)</u>
 Net adjustment to reduce fund balance - total governmental funds to arrive at net position - governmental activities	 <u><u>\$ (5,783,589)</u></u>

2 - Reconciliation of Government-wide and Fund Financial Statements (Continued)

Explanation of Certain Differences Between the Governmental Fund Statement of Revenues, Expenditures, and Changes in Fund Balances and the Government-Wide Statement of Activities

The governmental fund statement of revenues, expenditures, and changes in fund balances includes a reconciliation between net change in fund balances – total governmental funds and change in net position of governmental activities as reported in the government-wide statement of activities. One element of the reconciliation explains that “Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense.” The details of the \$ (512,272) difference are as follow:

Capital outlay	\$ 3,372,677
Depreciation expense	<u>(3,884,949)</u>
Net adjustment to reduce net change in fund balances - total governmental funds to arrive at change in net position of governmental activities	<u><u>\$ (512,272)</u></u>

Another element of that reconciliation states that “Some expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds.” The details of this \$ (20,395) difference are as follows:

Compensated absences	\$ (65,868)
Other postemployment benefits	(1,880)
Pension related cost	20,622
Amortization of bond premium	13,633
Accrued interest	<u>13,098</u>
Net adjustment to reduce net change in fund balances - total governmental funds to arrive at change in net position of governmental activities	<u><u>\$ (20,395)</u></u>

CITY OF PRAIRIE VILLAGE, KANSAS

3 - Stewardship, Compliance and Accountability

Budgetary Information

Kansas statutes require that an annual operating budget be legally adopted for the general fund, special revenue funds (unless specifically exempted by statute), and the debt service fund. The statutes provide for the following sequence and timetable in the adoption of the legal annual operating budget:

1. Preparation of the budget for the succeeding calendar year on or before August 1st.
2. Publication in the local newspaper of the proposed budget and notice of public hearing on the budget on or before August 5th.
3. Public hearing on or before August 15th, but at least ten days after publication of the notice of hearing.
4. Adoption of the final budget on or before August 25th.

The statutes allow for the governing body to increase the originally adopted budget for previously unbudgeted increases in revenue other than ad valorem property taxes. To do this, a notice of public hearing to amend the budget must be published in the local newspaper. At least ten days after publication the hearing may be held and the governing body may amend the budget at that time.

The statutes permit management to transfer budgeted amounts between line items within an individual fund. However, such statutes prohibit expenditures in excess of the total amount of the adopted budget of expenditures of individual funds. Budget comparison statements are presented for each fund showing actual receipts and expenditures compared to legally budgeted receipts and expenditures.

All legal annual operating budgets are prepared using the modified accrual basis of accounting, modified further by the encumbrance method of accounting. Revenues are recognized when cash is received. Expenditures include disbursements, accounts payable and encumbrances. Encumbrances are commitments by the City for future payments and are supported by a document evidencing the commitment, such as a purchase order or contract. All unencumbered appropriations (legal budget expenditure authority) lapse at year end. Encumbered appropriations are carried forward.

A legal operating budget is not required for the Grant Fund, Corinth CID Fund, PV Shops CID Fund, Capital Projects Fund and the fiduciary fund.

CITY OF PRAIRIE VILLAGE, KANSAS

NOTES TO BASIC FINANCIAL STATEMENTS
(Continued)

3 - Stewardship, Compliance and Accountability (Continued)

Budgetary Information (Continued)

Spending in funds which are not subject to the legal annual operating budget requirements is controlled by federal regulations, other statutes, or by the use of internal spending limits established by the governing body.

The City uses encumbrances to control expenditure commitments for the year and to enhance cash management. Encumbrances represent commitments related to executory contracts not yet performed and purchase orders not yet filled. Commitments for such expenditure of monies are encumbered to reserve a portion of applicable appropriations. Encumbrances still open at year-end are not accounted for as expenditures and liabilities, but, rather, as restricted, committed, or assigned fund balance. At December 31, 2014, the City's recorded encumbrances in governmental funds were as follows:

General fund	<u><u>\$ 282,421</u></u>
--------------	--------------------------

4 - Deposits and Investments

Deposits

Custodial Credit Risk - Deposits

Custodial credit risk is the risk that in the event of a bank failure, the City's deposits may not be returned to it. Kansas statutes require that deposits be collateralized, and that collateral pledged must have a fair market value equal to 100% of the deposits and investments, less insured amounts, and must be assigned for the benefit of the City. The City's deposit policy for custodial credit risk requires that the depository banks will maintain 100% security in the form of FDIC coverage and pledged collateral according to K.S.A. 9-1402. If any mortgage is involved in the underlying value of the instruments pledged as security by an institution, City funds should be collateralized at market to 120% of total investment.

CITY OF PRAIRIE VILLAGE, KANSAS
NOTES TO BASIC FINANCIAL STATEMENTS
(Continued)

4 - Deposits and Investments (Continued)

Deposits (Continued)

Custodial Credit Risk – Deposits (Continued)

The City’s cash is considered to be active funds by management and is invested according to K.S.A. 9-1401. The statute requires that banks eligible to hold active funds have a main or branch bank in the county or adjoining county in which the City is located and the banks provide an acceptable rate for active funds.

The City maintains a cash and investment pool that is available for use by all funds. Each fund’s portion of this pool is included in cash and investments on the balance sheet. At December 31, 2014, the City’s carrying amount of deposits, including certificates of deposit, was not exposed to custodial credit risk.

Investments

On December 31, 2014, the City’s investments were as follows:

Investment Type	Fair Value	Rating	Maturity (in Years)			
			Less Than 1	1 - 2	3 - 5	6 - 10

4 - Deposits and Investments (Continued)

Investments (Continued)

Credit Risk

Various City investments are considered to be idle funds by management and are invested according to K.S.A. 12-1675. The statute requires that the City invest its idle funds in only temporary notes of the City, bank certificates of deposit, repurchase agreements, and if eligible banks do not offer an acceptable rate for the fund: U.S. Treasury bills or notes or the Kansas Municipal Investment Pool (KMIP). The City's investments in the Municipal Investment Pool were rated AAAs/S1+ by Standard & Poor's. Maturities of the above investments may not exceed two years by statute.

The municipal investment pool is under the oversight of the Pooled Money Investment Board (the Board). The Board is comprised of the State Treasurer and four additional members appointed by the State Governor. The Board reports annually to the Kansas legislature. State pooled monies may be invested in direct obligations of, or obligations that are insured as to principal and interest by the U.S. government or any agency thereof, with maturities up to four years. No more than 10 percent of those funds may be invested in mortgage-backed securities. In addition, the State pool may invest in repurchase agreements with Kansas banks or with primary government securities dealers. The fair value of the City's position in the municipal investment pool is substantially the same as the value of the pool shares.

Some of the City's investments are of bond proceeds invested pursuant to K.S.A. 10-131. This statute allows additional investment authority beyond that of K.S.A. 12-1675. Investments of bond proceeds may follow K.S.A. 12-1675 or include other investments such as the KMIP, direct obligations of the U.S. government or any agency thereof, investment agreements with a financial institution the obligations of which at the time of investment are rated in either of the three highest rating categories by Moody's investors service or Standard and Poor's corporation, and various other investments as specified in K.S.A. 10-131.

The Pension Trust Fund investments are held by a bank's trust department in the City's name. By City policy, investments should be rated A or higher. Corporate debt securities should be of investment grade or better and only domestic fixed income securities are allowed. No more than 10% of the fair value of the fixed income portion of the portfolio can be invested in any obligation of a single issuer, except for the U.S. Government and its agencies. In regard to interest rate risk, the portfolio duration will not vary from the duration of the benchmark by plus or minus 20%.

CITY OF PRAIRIE VILLAGE, KANSAS
NOTES TO BASIC FINANCIAL STATEMENTS

4 - Deposits and Investments (Continued)

Investments (Continued)

Interest Rate Risk

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. As a means of managing its exposure to fair value losses arising from increasing interest rates, the City has a formally adopted investment policy that limits investment maturities. The policy states that the City must attempt to match investments with anticipated cash flow requirements.

Concentrations of Credit Risk

The City policy states that funds held in the General Fund and other funds shall be diversified to eliminate the risk of loss resulting from over concentration of assets in a specific maturity, a specific issuer or a specific class of securities. Diversification strategies shall be established, with periodic review and revision, as appropriate. Before a significant change in type of investments is made, staff will consult with the Finance Committee.

In establishing specific diversification strategies, the following general policies and constraints will apply:

Maturities will be staggered in a way that avoids undue concentration of assets in a specific maturity sector. Maturities will be selected which provide for income stability and reasonable liquidity.

For short term cash management fund liquidity, investment practices will be followed which ensure that funds required for the next disbursement date and payroll date are covered through maturing investments or marketable U.S. Treasury securities.

Custodial Credit Risk-Investments

For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the City will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. At December 31, 2014, the City's investments were not exposed to custodial credit risk.

CITY OF PRAIRIE VILLAGE, KANSAS

NOTES TO BASIC FINANCIAL STATEMENTS
(Continued)

5 - Capital Assets (Continued)

Depreciation expense was charged to functions/programs of the City as follows:

Governmental activities:

Urban management and planning	\$ 248,456
Public works	3,565,699
Public safety	<u>70,794</u>
Total depreciation expense	<u><u>\$ 3,884,949</u></u>

Capital Projects

The City is currently working on paving projects and performing various improvements. These projects are being funded primarily by the issuance of bonds.

Following is a summary of costs to December 31, 2014 for capital projects compared to the amount authorized:

<u>Project</u>	<u>Spent-to-Date</u>	<u>Remaining Commitments</u>
Street improvements	\$ 7,925,019	\$ 1,157,670
Drainage programs	1,014,006	71,405
Park projects	1,088,547	383,515
Aquatic center	7,501	42,499
City hall improvements	-	76,500
ADA improvements	<u>164,132</u>	<u>18,677</u>
Total	<u><u>\$ 10,199,205</u></u>	<u><u>\$ 1,750,266</u></u>

6 - Interfund Receivables, Payables, and Transfers

Receivables/Payables

The composition of interfund balances as of December 31, 2014, is as follows:

Receivable Fund	Payable Fund	Amount
General	Nonmajor governmental	\$ 62,405

The interfund balances result from the time lag between the dates that (1) transactions are recorded in the accounting system, and (2) payments between funds are made.

Transfers

Transfers to fund capital projects, insurance reserves and economic development activities by fund for the year were as follows:

Transfers out	Transfers in			Total
	General Fund	Bond and Interest Fund	Capital Projects Fund	
General	\$ -	\$ -	\$ 2,495,751	\$ 2,495,751
Stormwater	511,067	563,368	590,000	1,664,435
Nonmajor governmental funds	-	-	620,000	620,000
	\$ 511,067	\$ 563,368	\$ 3,705,751	\$ 4,780,186

7 - Long-Term Debt

General Obligation Bonds

The City issues general obligation bonds to provide funds for the acquisition and construction of major capital facilities such as the swimming pool, various public parks, and the public safety facility.

General obligation bonds payable at December 31, 2014 are comprised of the following issues:

	Interest Rates	Original Issue	Final Maturity	Principal Payments During 2014	Outstanding December 31, 2014
General obligation bonds:					
Series 2009-A	2.00 - 3.00%	\$ 10,085,000	9/1/2019	\$ 1,785,000	\$ 1,050,000
Series 2011-A	.40 - 2.00%	4,555,000	9/1/2021	85,000	4,300,000
				<u>\$ 1,870,000</u>	<u>\$ 5,350,000</u>

Call provisions at the option of the City included in the above bonds are as follows:

Series 2009-A: Callable September 1, 2014 at par plus accrued interest
Series 2011-A: Callable September 1, 2016 at par plus accrued interest

The installment ranges for the general obligation bonds are as follows:

	Installment Range	
	Low	High
General Obligation Bonds:		
2009-A	\$ 200,000	\$ 225,000
2011-A	525,000	815,000

CITY OF PRAIRIE VILLAGE, KANSAS

NOTES TO BASIC FINANCIAL STATEMENTS
(Continued)

7 - Long-Term Debt (Continued)

General Obligation Bonds (Continued)

Annual debt service requirements through maturity for general obligation bonds are as follows:

Year	Principal	Interest	Total
2015	\$ 725,000	\$ 92,750	\$ 817,750
2016	730,000	84,050	814,050
2017	745,000	73,750	818,750
2018	755,000	61,288	816,288
2019	780,000	47,008	827,008
2020 - 2024	1,615,000	47,400	1,662,400
Total	<u>\$ 5,350,000</u>	<u>\$ 406,246</u>	<u>\$ 5,756,246</u>

Change in Long-Term Liabilities:

Long-term liability activity for the year ended December 31, 2014 was as follows:

	Balance December 31, 2013	Additions	Reductions	Balance December 31, 2014	Current Portion
Governmental activities:					
Bonds payable:					
General obligation bonds	\$ 7,220,000	\$ -	\$ 1,870,000	\$ 5,350,000	\$ 725,000
Premium	81,797	-	13,633	68,164	-
Total bonds payable	7,301,797	-	1,883,633	5,418,164	725,000
Compensated absences	246,460	400,398	334,530	312,328	312,328
Other postemployment benefits	19,784	11,877	9,997	21,664	-
	<u>\$ 7,568,041</u>	<u>\$ 412,275</u>	<u>\$ 2,228,160</u>	<u>\$ 5,752,156</u>	<u>\$ 1,037,328</u>

For the governmental activities, compensated absences and the net OPEB benefit obligation are generally liquidated by the general, solid waste management and special alcohol funds.

CITY OF PRAIRIE VILLAGE, KANSAS
NOTES TO BASIC FINANCIAL STATEMENTS
(Continued)

7 - Long-Term Debt (Continued)

Conduit Debt Obligations

The City has issued debt for economic development in prior years. This debt is issued for the benefit of third parties and the City has no obligation beyond the initial lease or loan which has been assigned to various financial or banking entities. Therefore, the bonds are not reported as a liability in the accompanying financial statements. The following is a list of the outstanding bonds as of December 31, 2014.

Bond Issue	Interest Rate	Date Issue	Original Issue Amount	Final Maturity	Balance Outstanding
JC Nichols	Variable	12/1/1985	\$ 4,500,000	12/1/2015	\$ 4,500,000
Claridge Court	8.50 - 8.75%	8/28/2003	9,410,000	8/1/2023	9,410,000
			<u>\$ 13,910,000</u>		<u>\$ 13,910,000</u>

8 - Employee Retirement Systems and Pension Plans

Pension Plans

All employees of the City, after meeting eligibility requirements, are covered under the Kansas Public Employees Retirement System (KPERS), except commissioned police officers, who are covered by the Prairie Village, Kansas Police Department Retirement Plan (the Plan). The Plan is accounted for as a separate Pension Trust Fund, while KPERS is administered by the State of Kansas. Each plan is described below.

Kansas Public Employees Retirement System

The City participates in the Kansas Public Employees Retirement System (KPERS). KPERS is part of a cost-sharing multiple-employer defined benefit pension plan as provided by Kansas law. KPERS provides retirement benefits, life insurance, disability income benefits, and death benefits. Kansas law establishes and amends benefit provisions. KPERS issues a publicly available financial report that includes financial statements and required supplementary information. This report may be obtained by writing to KPERS (611 S. Kansas Avenue, Suite 100; Topeka, Kansas 66603-3803) or by calling 1-888-275-5737.

CITY OF PRAIRIE VILLAGE, KANSAS

NOTES TO BASIC FINANCIAL STATEMENTS
(Continued)

8 - Employee Retirement Systems and Pension Plans (Continued)

Kansas Public Employees Retirement System (Continued)

K.S.A. 74-4919 and K.S.A. 74-49,210 establish the KPERS member-employee contribution rates. Effective July 1, 2009 KPERS has two benefit structures and funding depends on whether the employee is a Tier 1 or Tier 2 member. Tier 1 members are active and contributing members hired before July 1, 2009. Tier 2 members were first employed in a covered position on or after July 1, 2009. Kansas law establishes the KPERS member-employee contribution rate at 5% of covered salary for Tier 1 members and at 6% of covered salary for Tier 2 members. The employer collects and remits member-employee contributions according to the provisions of Section 414(h) of the Internal Revenue Code. Kansas law provides that the employer contribution rates be determined annually based on the results of an annual actuarial valuation. KPERS is funded on an actuarial reserve basis. Kansas law sets a limitation on annual increases in the employer contribution rates. The KPERS employer rate established by statute from January through December 2014 was 9.69%. Included in this rate is the contribution for Group Death and Disability Insurance of .85%. The employer contributions to KPERS for the years ended December 31, 2014, 2013 and 2012 were \$ 284,749, \$ 237,308, and \$ 241,276, respectively, equal to the statutory required contributions for each year.

Prairie Village, Kansas Police Department Retirement Plan

Plan Description

Plan Administration

The City of Prairie Village, Kansas established and appointed the City of Prairie Village Police Pension Board of Trustees with responsibility to manage and administer the Prairie Village, Kansas Police Department Retirement Plan (the Plan), a single-employer defined benefit pension plan. The Plan provides pension benefits to eligible full-time commissioned law enforcement officers of the City who have been continually employed by the City for at least one year.

The Board of Trustees is composed of three members, with two of the members designated by the City and one member designated by the employees.

The Plan does not issue a stand-alone financial report but is included as a pension trust fund of the City.

CITY OF PRAIRIE VILLAGE, KANSAS
 NOTES TO BASIC FINANCIAL STATEMENTS
 (Continued)

8 - Employee Retirement Systems and Pension Plans (Continued)

Prairie Village, Kansas Police Department Retirement Plan (Continued)

Plan Membership

As of January 1, 2014, pension plan membership consisted of the following:

Inactive plan members (or beneficiary) currently receiving benefits	37
Inactive plan members entitled to but not yet receiving benefits	11
Active plan members	44
	92

Benefits Provided

Retirement benefits for members are calculated as 2.5% of the member's 3-year final average salary times the member's years of service (capped at 25). Plan members may retire at age 55 with 5 years of service or at any age with 20 years of service.

Disability retirement benefits are determined in the same manner as retirement benefits and are payable immediately with an actuarial reduction. Death benefits are determined as a lump sum of the actuarial value of the member's accrued benefit reduced by any life insurance proceeds provided by the City.

The Pension Committee reserves the right to amend the provisions of the Plan.

Contributions

Members contribute 4.0% of annual earnings. The City makes annual contributions based on a recommendation by an independent actuary. The 5-year average contribution rate for plan years beginning 2010-2014 is 17.71% of annual payroll.

City contributions are authorized by local ordinances. The City may terminate the plan or its contributions at any time. The actual employer contribution to the Plan during the year ended December 31, 2014 was \$ 450,000.

Investments

Investment Policy

Investment decisions are governed by the Police Pension Board of Trustees. The objective of the Plan's investment policy is to provide present and future retirement benefits by achieving an investment return that, at a minimum, equals the Plan's actuarial interest rate assumption on an ongoing basis without exposing the Plan to undue risk. The following is the target asset allocation approved by the Board:

Asset Class	Target Allocation
Large Cap Domestic Equity	25%
Mid Cap Domestic Equity	10%
Small Cap Domestic Equity	10%
International Equity	15%
Fixed Income	35%
Other	5%
Cash	0%
	100%
Total	

Method Used to Value Investments

Investments are reported at fair value. Securities traded on a national or international exchange are valued at the last reported sales price at current exchange rates.

Rate of Return

For the year ended December 31, 2014, the annual money-weighted rate of return on pension plan investments, net of pension plan investment expense, was 5.88%. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested. The cash flows used as inputs in the calculation are determined on a monthly basis.

CITY OF PRAIRIE VILLAGE, KANSAS
NOTES TO BASIC FINANCIAL STATEMENTS
(Continued)

8 - Employee Retirement Systems and Pension Plans (Continued)

Prairie Village, Kansas Police Department Retirement Plan (Continued)

Net Pension Liability of the City

The components of the net pension liability at December 31, 2014 were as follows:

Total pension liability	\$ 14,427,576
Plan fiduciary net position	<u>(12,074,121)</u>
Net pension liability	<u>\$ 2,353,455</u>
Plan fiduciary net position as a percentage of the total pension liability	83.69%

Actuarial Assumptions

The pension liability was determined by an actuarial valuation as of January 1, 2014, using the following actuarial assumptions:

Investment rate of return	7.75%
Discount rate	7.75%
Inflation rate	N/A
Salary scale	5.00%
Mortality table	RP 2000
Actuarial cost method	Entry age normal

CITY OF PRAIRIE VILLAGE, KANSAS
NOTES TO BASIC FINANCIAL STATEMENTS
(Continued)

8 - Employee Retirement Systems and Pension Plans (Continued)

Prairie Village, Kansas Police Department Retirement Plan (Continued)

Net Pension Liability of the City (Continued)

Actuarial Assumptions (Continued)

The long-term expected rate of return on pension plan investments was determined using benchmarking, recent performance and historical data to develop estimates of future real rates of return for each major asset class. These rates are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage. Best estimates of arithmetic real ratio of return for each major asset class included in the pension plan's target asset allocation are summarized in the following table:

Asset Class	Long-Term Expected Real Rate of Return
Large Cap Domestic Equity	2%
Mid Cap Domestic Equity	1%
Small Cap Domestic Equity	1%
International Equity	1%
Fixed Income	3%
Other	0%
Cash	0%

Discount Rate

The discount rate used to measure the total pension liability as of December 31, 2014 was 7.75%. The projection of cash flows used to determine the discount rate assumed that employer contributions will be made at 17.71% of covered payroll of current plan members for each year in the future plus contributions for future members in excess of their service costs. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Net Pension Liability of the City (Continued)

Sensitivity of the Net Pension Liability to Changes in the Discount Rate

The following presents the net pension liability, calculated using the discount rate of 7.75%, as well as the net pension liability calculated using a discount rate that is 1-percentage point lower (6.75%) or 1-percentage point higher (8.75%) than the current rate:

	1% Decrease 6.75%	Current Discount Rate 7.75%	1% Increase 8.75%
Net Pension Liability	\$ 4,099,979	\$ 2,353,455	\$ 885,137

Annual Pension Cost and Net Pension Asset

The Plan has adopted GASB 67 for the purposes of this financial report. Until the implementation of GASB 68 in 2015, the City as the employer continues to follow GASB 27 which requires the reporting of certain information such as the annual pension cost and the net pension obligation or asset.

The City's annual pension cost and changes in the City's net pension asset/obligation consisted of the following for the year ended December 31, 2014:

Annual required contribution	\$ 429,284
Interest on net pension obligation	(499)
Adjustment to annual required contribution	593
Annual pension cost	\$ 429,378

CITY OF PRAIRIE VILLAGE, KANSAS

NOTES TO BASIC FINANCIAL STATEMENTS
(Continued)

8 - Employee Retirement Systems and Pension Plans (Continued)

Prairie Village, Kansas Police Department Retirement Plan (Continued)

Annual Pension Cost and Net Pension Asset (Continued)

Annual pension cost	\$ 429,378
Less contributions made	450,000
Increase in net pension asset	<u>20,622</u>
Net pension asset, beginning of year	<u>6,446</u>
Net pension asset, end of year	<u><u>\$ 27,068</u></u>

The following is a schedule of employer contributions for the past three years:

Year:	Annual Required Contribution (ARC)	Percentage of ARC Contributed	Annual Pension Cost (APC)	Net Pension Asset
2012	\$ 428,111	105%	\$ 428,160	\$ 7,368
2013	450,838	100%	450,922	6,446
2014	429,284	105%	429,378	27,068

As of January 1, 2014, the most recent actuarial valuation date, the plan was 89.4% funded. The actuarial accrued liability for benefits was \$ 13,707,141 and the actuarial value of assets was \$ 12,247,684, resulting in an unfunded actuarial accrued liability (UAAL) of \$ 1,459,457. The covered payroll (annual payroll of active employees covered by the plan) was \$ 2,602,453, and the ratio of the UAAL to the covered payroll was 56.1%.

The schedule of funding progress, presented as RSI following the notes to the financial statements, presents multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liability for benefits.

8 - Employee Retirement Systems and Pension Plans (Continued)

Prairie Village, Kansas Police Department Retirement Plan (Continued)

Annual Pension Cost and Net Pension Asset (Continued)

The aggregate actuarial cost method is used to calculate the ARC. Because this method does not identify or separately amortize unfunded actuarial liabilities, information about funded status and funding progress has been prepared using the entry age actuarial cost method and the information presented is intended to serve as a surrogate for the funded status and funding progress of the plan.

Additional information as of the latest actuarial valuation follows:

Valuation date	January 1, 2014
Actuarial cost method	Aggregate
Asset valuation method	Actuarial value of plan assets as of the beginning of the prior year, increased by contributions paid and assumed interest earnings at the valuation interest rate, reduced by benefit payments during the year.
Amortization method	Average remaining service
Remaining amortization period	Approximately five years
Actuarial assumptions:	
Investment rate of return	7.75% per annum
Projected salary increases - due to merit	5.0% per year
Projected salary increases - inflation	3.0% per year
Mortality rates	RP2000 mortality table

8 - Employee Retirement Systems and Pension Plans (Continued)

Prairie Village, Kansas Police Department Retirement Plan (Continued)

Deferred Compensation Plan

The City offers City employees a deferred compensation plan created in accordance with the Internal Revenue Code, Section 457. The assets of the plan are held in trust as described in IRC Section 457(g) for the exclusive benefit of the participants (employees) and their beneficiaries. The custodian thereof for the exclusive benefit of the participants holds the custodial account for the beneficiaries of this Section 457 plan, and the assets may not be diverted to any other use. The administrators are agents of the employer for purposes of providing direction to the custodian of the custodial account from time to time for the investment of the funds held in the account, transfer of assets to or from the accounts and all other matters. Plan balances and activities are not reflected in the City's financial statements.

9 - Risk Management

The City is exposed to various risks of loss related to torts; damage to and destruction of assets; business interruptions; errors and omissions; employee injuries and illnesses; natural disasters; and employee health, dental and accident benefits. Commercial insurance coverage is purchased for claims arising from such matters. Settled claims have not exceeded this commercial coverage in any of the three preceding years. There have not been significant reductions in coverage from prior years.

10 - Other Postemployment Healthcare Plan

Plan Description. The City offers postemployment health insurance for retired employees. The benefits are provided through a single employer defined benefit postemployment healthcare plan administered by the City. The Employee Benefit Plan (the Plan) provides medical benefits to eligible early retirees and their spouses. K.S.A. 12-5040 requires all local governmental entities in the state that provide a group health care plan to make participation available to all retirees and dependents until the retiree reaches the age of 65 years. No separate financial report is issued for the Plan.

CITY OF PRAIRIE VILLAGE, KANSAS
NOTES TO BASIC FINANCIAL STATEMENTS
(Continued)

10 - Other Postemployment Healthcare Plan (Continued)

Funding Policy. The contribution requirements of plan participants and the City are established and amended by the City. The required contribution is based on projected pay-as-you-go financing requirements. If the employee retired prior to January 1, 2009, the contributions are equal to 100% of the full active premium. If the employee retired on or after January 1, 2009, the contributions are equal to 125% of the full active premium except if the employee accepted the early retirement incentive program during 2009 they pay only 100% of the full active premium.

In 2014, the City made contributions of \$ 9,997 to the plan. Plan members receiving benefits contributed \$ 27,620.

Annual OPEB Cost and Net OPEB Obligations. The City's annual other postemployment benefit (OPEB) cost (expense) is calculated based on the annual required contribution of the employer (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years.

The following table shows the components of the City's annual OPEB cost for the Plan for the year, the amount actually contributed to the plan, and the changes in the City's net OPEB obligation to the Plan:

Annual required contribution	\$	12,151
Interest on net OPEB obligation		890
Adjustment to annual required contribution		(1,164)
Annual OPEB cost		11,877
Contributions made		(9,997)
Change in net OPEB obligation		1,880
Net OPEB obligation, beginning of year		19,784
Net OPEB obligation, end of year	\$	21,664

CITY OF PRAIRIE VILLAGE, KANSAS

NOTES TO BASIC FINANCIAL STATEMENTS
(Continued)

10 - Other Postemployment Healthcare Plan (Continued)

The City's annual OPEB cost, the percentage of annual OPEB cost contributed to the Plan, and the net OPEB obligation for the year ended December 31, 2014 and the two preceding years was as follows:

<u>Fiscal Year Ended</u>	<u>Annual OPEB Cost</u>	<u>Percentage of Annual OPEB Cost Contributed</u>	<u>Net OPEB Obligation</u>
2012	\$ 12,387	73%	\$ 17,154
2013	12,151	78%	19,784
2014	11,877	84%	21,664

Funding Status and Funding Progress. As of January 1, 2012, the most recent actuarial valuation date, the actuarial accrued liability for benefits was \$ 117,100 and the actuarial value of assets was \$ -0-, resulting in an unfunded actuarial accrued liability (UAAL) of \$ 117,100. The covered payroll (annual payroll of active employees covered by the plan) was \$ 5,667,954, and the ratio of the UAAL to the covered payroll was 2.1%.

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to the financial statement, presents multiyear trend information about whether the actuarial value of plan assets (if any) are increasing or decreasing over time relative to the actual accrued liabilities for benefits.

CITY OF PRAIRIE VILLAGE, KANSAS

NOTES TO BASIC FINANCIAL STATEMENTS
(Continued)

10 - Other Postemployment Healthcare Plan (Continued)

Actuarial Methods and Assumptions. Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and the plan participants) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan participants to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

In the January 1, 2012 actuarial valuation, the projected unit credit actuarial cost method was used. The actuarial assumptions included a 4.5% investment rate of return, which is the rate of the employer's own investments as there are no plan assets and an annual healthcare cost trend of 8% initially, reduced by decrements to an ultimate rate of 5% after ten years. The inflationary impact assumption is 2%. The UAAL is being amortized as a level dollar over an open thirty-year period.

CITY OF PRAIRIE VILLAGE, KANSAS

Statistical Section

This part of the City of Prairie Village's *Comprehensive Annual Financial Report (CAFR)* presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the City's overall financial health.

Contents

Financial Trends	75 - 81
------------------	---------

These schedules contain trend information to help the reader understand how the City's financial performance and well-being have changed over time.

Revenue Capacity	82 - 88
------------------	---------

These schedules contain information to help the reader assess the City's most significant local revenue source, the property tax.

Debt Capacity	89 - 93
---------------	---------

These schedules present information to help the reader assess the affordability of the City's current levels of outstanding debt and the City's ability to issue additional debt in the future.

Demographic and Economical Information	94 - 95
--	---------

These schedules offer demographic and economic indicators to help the reader understand the environment within which the City's financial activities take place.

Operating Information	96 - 98
-----------------------	---------

These schedules contain service and infrastructure data to help the reader understand how the information in the City's financial report related to the services the City provides and the activities it performs.

Sources: Unless otherwise noted, the information in these schedules is derived from the Annual Financial Report for the relevant year.

		(1)	

(1) The decrease in the change in net assets between 2005 and 2006 is due to additional depreciation expense in 2006 resulting from the retroactive addition of the Drainage Channel and Sidewalk infrastructure networks. In addition, the City incurred additional street maintenance expenses.

(1) The County Assessor values real property as required by State Statute and rulings of the State Board of Tax Appeals. Prior to 1989, real property was valued at 24% of estimated values. Real property is now valued at different percentages which reflect the property's use. Residential land, improvement, and vacant lots (estimated at 83% of real property) are assessed at 11.5% of actual value. Commercial land and improvements are assessed at 25% of actual value.

(2) Personal property is assessed at 30% of actual value. State assessed utilities are assessed at 33%.

(1) The County Assessor values real property as required by State Statute and rulings of the State Board of Tax Appeals. Prior to 1989, real property was valued at 24% of estimated values. Real property is now valued at different percentages which reflect the property's use. Residential land, improvement, and vacant lots (estimated at 83% of real property) are assessed at 11.5% of actual value. Commercial land and improvements are assessed at 25% of actual value.

(2) Personal property is assessed at 30% of actual value. State assessed utilities are assessed at 33%.

(3) Starting July 1, 2013 watercraft will not be assessed as Personal property (30% of actual value). Instead watercraft will be assessed at the rate discussed below:

79-5501. Taxation of watercraft. (a) On and after July 1, 2013, watercraft shall be appraised at fair market value determined therefor pursuant to K.S.A. 79-503a, and amendments thereto, and assessed at the percentage of value as follows: (1) 11.5% in tax year 2014; and (2) 5% in tax year 2015 and all tax years thereafter. In no case shall the assessed value of any watercraft, as determined under the provisions of this section, cause the tax upon such watercraft to be less than \$12. (b) As used in this section, "watercraft" means any vessel requiring numbering pursuant to K.S.A. 32-1110, and amendments thereto. Each watercraft may include one trailer which is designed to launch, retrieve, transport and store such watercraft and any nonelectric motor or motors which are necessary to operate such watercraft on the water. History: L. 2013, ch. 87, § 10; Apr. 25.

(1) Information provided by the Johnson County Economic Research Institute.

(2) This is the general bonded debt, net of original issuance discounts and premiums.

CITY OF PRAIRIE VILLAGE, KANSAS

DIRECT AND OVERLAPPING DEBT

December 31, 2014

Name of Governmental Unit	Net Debt Obligation	Percentage Applicable to City of Prairie Village	Amount Applicable to City of Prairie Village
Direct debt:			
City of Prairie Village, Kansas	\$ 5,418,164	100.00%	\$ 5,418,164
Overlapping debt: ⁽¹⁾			
Johnson County	316,465,935	3.65%	11,551,007
Shawnee Mission School (U.S.D. 512)	194,477,739	9.77%	19,000,475
Fire District #2	725,000	39.50%	286,375
Johnson County Parks and Recreation	2,315,000	3.65%	84,498
Total overlapping debt	513,983,674		30,922,355
Total direct and overlapping debt	\$ 519,401,838		\$ 36,340,519
Direct and overlapping debt per capita	1,659.99		
Direct and overlapping debt as a percentage of assessed valuation	12.45%		
Direct and overlapping debt as a percentage of actual value	1.49%		

(1) Information provided by Johnson County Clerk's Office.

Note: Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the City. This schedule estimates the portion of the overlapping debt of those overlapping governments that is borne by the residents and businesses of the City. This process recognizes that, when considering the City's ability to issue and repay long-term debt, the entire debt burden borne by the residents and businesses should be taken into account. However, this does not imply that every taxpayer is a resident, and therefore responsible for repaying the debt, of each overlapping government.

For debt repaid with property taxes, the percentage of overlapping debt applicable is estimated using taxable assessed property values. Applicable percentages were estimated by determining the portion of another governmental unit's taxable assessed value that is within the City's boundaries and dividing it by each unit's total taxable assessed value. This approach was also applied to the other debt of the overlapping governmental units.
