THE CITY OF PRAIRIE VILLAGE

STAR OF KANSAS

June 1, 2018

To the Honorable Mayor, Members of the City Council and Citizens of the City of Prairie Village:

Kansas statutes require all cities to issue an annual report on its financial position and activity prepared in accordance with accounting principles generally accepted in the United States of America (GAAP) and audited in accordance with auditing standards generally accepted in the United States of America by a firm of licensed certified public accountants. Pursuant to the requirement, we hereby issue the comprehensive annual financial report (CAFR) of the City of Prairie Village for the fiscal year ended December 31, 2017.

The responsibility for accuracy, completeness, and fairness of the data presented, including all disclosures, rests with City management. City management is responsible for establishing and maintaining an internal control structure designed to earn the public's confidence and trust. The internal control structure is designed to provide reasonable, but not absolute, assurance that these objectives are met in the areas of: safeguarding assets against loss from unauthorized use or disposition, reliability of financial records, and convenience of access for preparing financial statements and maintaining accountability for assets. The City's accounting system is continually evaluated to assure adequacy of internal controls. The concept of reasonable assurance recognizes that (1) the cost of a control should not exceed the benefits likely to be derived; and (2) the valuation of costs and benefits requires estimates and judgments by management. We believe the report as presented, is accurate in all material aspects and is presented in a manner designed to fairly set forth the financial position of the City, on a Government-wide and Fund basis.

The City of Prairie Village's financial statements have been audited by Berberich Trahan & Co., P.A., a firm of licensed certified public accountants. The goal of the independent audit was to provide reasonable assurance that the financial statements of the City of Prairie Village for the fiscal year ended December 31, 2017, are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. The independent auditor concluded based on the audit, that there was a reasonable basis for rendering an unqualified opinion that the City of Prairie Village's financial statements for the fiscal year ended December 31, 2017, are fairly presented in conformity with GAAP. The independent auditor's report is presented as the first component of the financial section of this report.

Management's discussion and analysis immediately follows the independent auditor's report and provides a narrative introduction, overview and analysis of the basic financial statements. Management's discussion and analysis complements this letter of transmittal and should be read in conjunction with it.

CITY OF PRAIRIE VILLAGE, KANSAS

Letter of Transmittal

For the Year Ended December 31, 2017

Profile of the Government

The City of Prairie Village was originally the vision of the late J.C. Nichols. After successfully developing the Country Club Plaza area in Kansas City, Missouri, Mr. Nichols turned his company direction and development toward his native Johnson County just a few miles from the Plaza. He had visions of transforming the rolling hills into a well-planned community of beautiful homes and neighborhood shopping centers. Construction in Prairie Village started in 1941 and Mr. Nichols' dream became reality in 1949 when the City was named the best-planned community in America by the National Association of Home Builders.

The State of Kansas officially recognized Prairie Village as a city in 1951 with a total population of 1,360 and land area of one-half mile. By 1957, it had become a city of the first class. Now, it is one of 20 incorporated cities in Johnson County and has the sixth largest population. It is completely surrounded by other cities, sharing its eastern border, State Line Road, with Kansas City, Missouri. The City has a residential population of approximately 21,805 within its 6.7 square mile city limits.

The City operates under the Mayor-Council form of government with an appointed professional City Administrator. The City is divided into six wards with two councilpersons elected from each ward to serve staggered four-year terms. The Mayor is elected by the City at large for a four-year term. The City Administrator has responsibility for administration of all City programs and departments in accordance with policies and the annual budget adopted by the Council.

City government provides a wide range of services including: police protection and safety programs; construction and maintenance of streets, storm drainage and infrastructure; summer recreational activities and year-round cultural events; residential waste collection, recycling and composting services; and other general services for residents. Fire and health services are provided by the County; utilities are a service provided by the private sector.

The financial reporting entity includes all the funds of the City as legally defined. Component units are legally separate entities for which the primary government is financially accountable. The City has no component units.

The City maintains budgetary controls to ensure compliance with legal provisions associated with the annual appropriated budget which is approved by the governing body. Kansas statutes require that an annual operating budget be legally adopted for the General Fund, Special Revenue Funds and the General Obligation Debt Service Fund.

In addition to general City activities, the Governing Body exercises or has the ability to exercise oversight of the revised Prairie Village Police Pension Plan Fund and the Supplemental Retirement Plan Fund; therefore, these activities are included in the report.

Local Economy

Local city sales and use tax collections increased 2.5%, and property tax collections were up 6.6% in 2017. Overall residential properties increased 12.3% and commercial property increased 2.8% in Prairie Village. The average sales price increased 8.6% from 2015 to 2016 while the mean appraised value rose 11.9%.

The Johnson County unemployment rate for 2017 was 3.0%, which was lower than the Kansas rate of 3.4%. Major employers include the school district and grocery stores.

CITY OF PRAIRIE VILLAGE, KANSAS

Letter of Transmittal

For the Year Ended December 31, 2017

The City is located in the Kansas City metropolitan area and is considered one of the most desirable suburban communities in the region. The City is conveniently located between the Kansas City, Missouri business/industrial center and the southern Johnson County business districts. The area has experienced steady economic growth during the past two decades. The cyclical variations in the national economy over the last ten years have had a moderate effect on the City's economic growth.

Although the City is fully-developed and land-locked, the value of tangible property in Prairie Village has been maintained over the past ten years. In 2011, the City created two Community Improvement Districts (CIDs) that have had a positive impact on the local economy. In 2016, a Tax Increment Financing District (TIF) was created for the redevelopment district located roughly between Roe and Nall and 95th and Somerset. The positive economic environment has also enabled the City to maintain the same quality and level of services without increasing property taxes. The City continues to maintain a favorable financial outlook based on prudent financial practices.

Based on current projections, the City will continue to be a desired location for those who work in the metropolitan area. The City is committed to a program for maintenance of the community and future redevelopment, which will contribute to the quality of life for all of the City's residents.

Long Range Financial Plan

A five-year forecast of General Fund balances is prepared using current economic information and revenue and expenditure trends. In 2001, the Mayor appointed a committee of Council members to analyze financial trends and the economic condition of the community. The committee established a long range financial plan which is used to develop the City's annual budget. In addition, the City engaged consultants in 2005 to prepare a financial analysis to include recommendations for changes that would stabilize the population and revenue base. The City Council adopted the "Village Vision" document in May 2007 and has implemented many of the ideas since its inception. Village Vision has contributed greatly to the viability of the community. Because of the importance of Village Vision, the Council has initiated the process of updating the document so it will continue to guide them in future strategic planning.

The City maintains a five-year Capital Infrastructure Program which serves as its planning document to ensure its facilities and infrastructure are well maintained and operating in peak condition. Projects are identified by name, cost and funding sources (property taxes, reserves, bonding, assessments, state/federal funding or other). The City also funds its equipment purchases through its budgetary process annually. This ensures that when a piece of equipment is scheduled to be replaced, a majority (if not all) of the funding is available for the purchase of the equipment. This allows the City to stabilize the impact on property tax revenues by building the required amount over a period of time.

2017 Major Initiatives

As a part of the preparation for the 2017 annual budget, the following priorities were established and achieved by the City Council:

- ❖ Maintain high quality services and programs
- ❖ Maintain quality streets, parks and infrastructure
- ❖ Continue strong financial position
- ❖ Maintain Aaa bond rating
- ❖ Reduce reliance on fund balance and reserves
- ❖ Be mindful of tax burden

CITY OF PRAIRIE VILLAGE, KANSAS

Letter of Transmittal

For the Year Ended December 31, 2017

Prairie Village is a desirable community in which to live because of its location, the quality of infrastructure and housing maintenance, the school system, and its sense of community, which pervades the services provided to residents. This prevailing climate has created a gradual change, which has helped maintain property values and is transforming the landlocked, fully developed, and aging City into a community which continues to experience improvement and redevelopment of residential and commercial property.

2017 Relevant Financial Policies

During the budget process, the Governing Body directed staff to maintain a minimum unassigned General Fund reserve balance equivalent to 25% of General Fund revenues to provide working capital between semi-annual property tax settlements. The City needs sufficient cash reserves to avoid short-term borrowing to finance operations. The City has unspendable or restricted fund balances for deferrals, prepaid items, and other legal obligations. The City also reports the committed and assigned fund balances for special purposes.

The primary goal of the City's investment policy is to ensure the safety of the principal invested. Cash temporarily idle during the year is invested primarily in certificates of deposit, obligations of the U.S. Treasury, Kansas Municipal Investment Pool, Kansas GO Bonds and Repurchase Agreements. Cash balances from all City funds are pooled into an investment fund and investment income is distributed on a monthly basis based on month end balances. A cash flow analysis is utilized and staggered in a way to meet projected liquidity needs.

Capital financing for major improvements is provided for during the budget or general obligation bonds.

The City of Prairie Village has financial management policies that allow for the planning of adequate funding of services desired by the public, to manage the City finances wisely, and to carefully account for public funds.

In addition to the major initiatives discussed above, the 2017 budget reflected several financial policies the City has established.

- ❖ Continue to strive for financial transparency by implementing a Transparent PV link on the City website which gives citizens easy access to City documents
- ❖ Conduct a thorough review of all budgeted items at the staff level
- ❖ Provide a revenue structure that pays the full cost of current services, and can be responsive to economic conditions
- ❖ Maintain financial accounting and budget practices that provide full disclosure of the City's financial affairs
- ❖ Assess and plan for technology needs
- ❖ Evaluate existing City services to determine the need and efficiency of such services

Other Information

Awards and acknowledgements

The Government Finance Officers Association (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the City for its CAFR for the fiscal year ended December 31, 2016. This was the thirty-first consecutive year the government received this prestigious award. In order to be awarded a Certificate of Achievement, the government must publish an easily readable and efficiently organized CAFR. This report satisfied both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current CAFR continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

CITY OF PRAIRIE VILLAGE, KANSAS

Letter of Transmittal

For the Year Ended December 31, 2017

The City also received the GFOA's Award for Distinguished Budget Presentation for its annual appropriated budget for the fiscal year beginning January 1, 2017. This is the twenty-ninth year the City has received this prestigious award. In order to qualify for the Distinguished Budget Presentation Award, the City's budget document was judged to be proficient in several categories including policy documentation, financial planning, and organizational guidance.

In addition, the City received the GFOA's Award for Outstanding Achievement in Popular Annual Financial Reporting for its PAFR for the fiscal year ended December 31, 2017. This is the fifth year the City has received this prestigious award. In order to qualify to be awarded an Outstanding Achievement, the government must publish a financial report specifically designed to meet the needs of interested parties who may be unable or unwilling to use traditional financial reports. An Outstanding Achievement is valid for a period of one year only.

The preparation of the CAFR on a timely basis was made possible by the dedicated service of City staff. Those individuals who contributed to the preparation of this report have our sincere appreciation for their efforts.

Although City staff accomplished the preparation and documentation of this report, it is the leadership and support of the Governing Body that provides the policy direction and financial integrity on which the report is based.

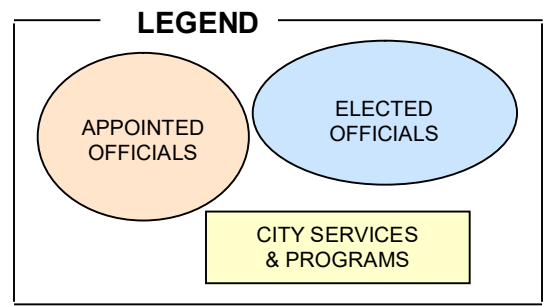

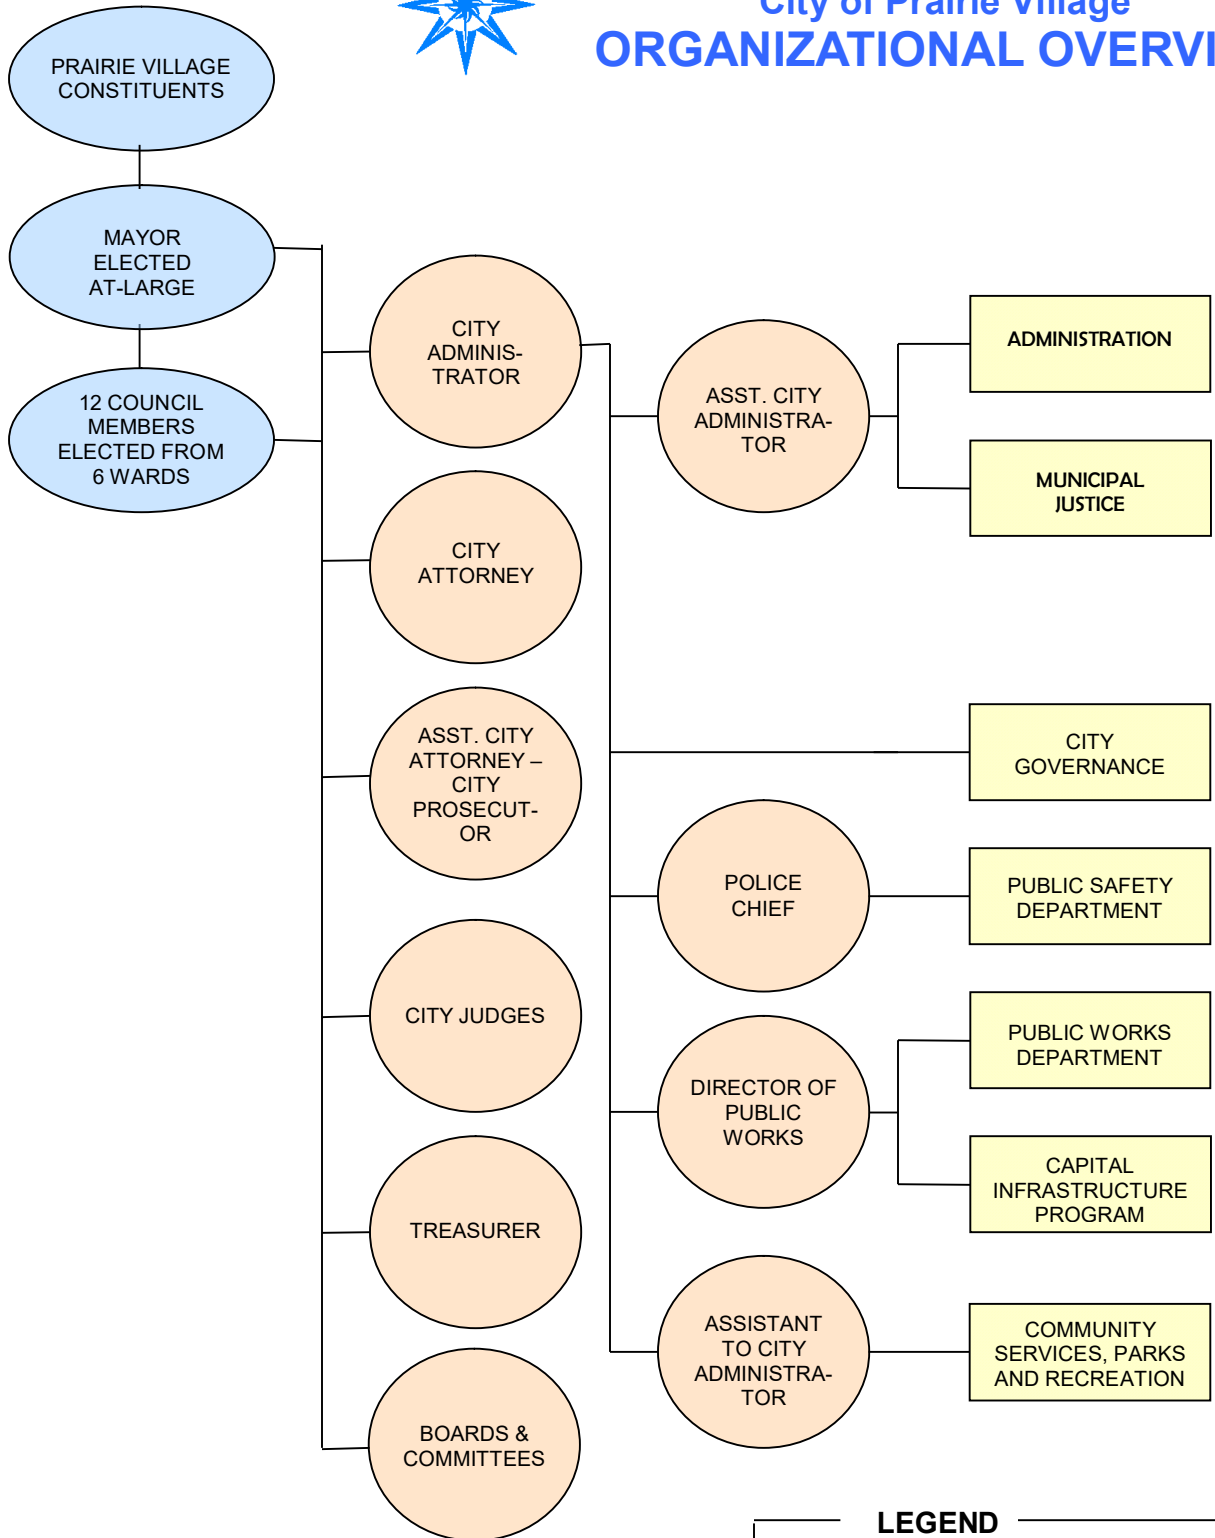

Respectfully submitted,

A handwritten signature in black ink that reads "Lisa Santa Maria". The signature is written in a cursive style with a large initial "L" and "S".

Lisa Santa Maria

INDEPENDENT AUDITOR'S REPORT

The Honorable Mayor and City Council
City of Prairie Village, Kansas

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the City of Prairie Village, Kansas (the City), as of and for the year ended December 31, 2017, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the *Kansas Municipal Audit and Accounting Guide*. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the City's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

An Independently Owned Member, RSM US Alliance

RSM US Alliance member firms are separate and independent businesses and legal entities that are responsible for their own acts and omissions, and each are separate and independent from RSM US LLP. RSM US LLP is the U.S. member firm of RSM International, a global network of independent audit, tax, and consulting firms. Members of RSM US Alliance have access to RSM International resources through RSM US LLP but are not member firms of RSM International.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the City as of December 31, 2017, and the respective changes in financial position and the respective budgetary comparisons for the general fund and major special revenue funds for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and the required supplementary information listed in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary and Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The combining nonmajor fund financial statements and schedules are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining nonmajor fund financial statements and schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the accompanying supplementary information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on them.

Berwick Trahan + Co., P.A.

CITY OF PRAIRIE VILLAGE, KANSAS

MANAGEMENT'S DISCUSSION AND ANALYSIS

For the year ended December 31, 2017

This discussion and analysis of the City of Prairie Village's financial performance provides an overall review of the City's financial activities for the fiscal year ended December 31, 2017. The intent of this discussion and analysis is to look at the City's financial performance as a whole; readers should also review the transmittal letter, notes to the basic financial statements and financial statements to enhance their understanding of the City's financial performance. To enhance comparability between governments, the City has followed guidelines prescribed by the Governmental Accounting Standards Board (GASB) Statement 34.

FINANCIAL HIGHLIGHTS

Key financial highlights for 2017 are as follows:

- The City Council approved a \$45 million budget and did not have a property tax increase.
- The assets and deferred outflows of resources of the City exceeded its liabilities and deferred inflows of resources as of December 31, 2017 by \$75,665,666 (net position). Of this amount, \$6,243,697 (unrestricted net position) may be used to meet the City's ongoing obligations.
- Net investment in capital assets decreased by \$5,551,688, or 7.6% due to activity in 2016 which included the Meadowbrook bond issue and purchase of City streetlights from KCPL.
- Combined net position decreased by \$2,302,240 or -2.95%. The decline is a combination of an increase in unrestricted net position and a decrease in capital assets which is attributable to the two 2016 general obligation bond issues for the Meadowbrook redevelopment district and Streetlight purchase.
- Unrestricted net position increased \$2,492,509 or 66% over the prior year. The increase is mainly due to the Meadowbrook General Obligation bond issue in 2016, and change in the net pension obligation.
- The City's total general obligation debt decreased by \$1,170,000 during 2017 to a total of \$17,125,000. There was no new debt issued in 2017.
- The Meadowbrook Tax Increment Financing (TIF) fund had a 2017 ending fund balance of \$536,922, which reflects funds set aside for debt service.
- The City's total assessed valuation increased to \$365,342,608 from \$325,158,372 in 2016, a 12% increase.
- The unrestricted fund balance as a percentage of total revenues is 42.5%.

- Among major funds, the general fund had \$19,676,957 in revenues and other financing sources and \$20,055,807 in expenditures and other financing uses. The general fund's fund balance decreased from \$9,463,174 to \$9,084,324. The ending fund balance of \$9,084,324 is 46% of general fund revenues.

OVERVIEW OF THE FINANCIAL STATEMENTS

This annual report consists of three parts – *management's discussion and analysis*, *the basic financial statements*, and other supplementary information which presents *combining and individual statements* for non-major government funds. The basic financial statements include two kinds of statements that present different views of the City.

These statements are as follows:

1. *The Government-Wide Financial Statements* – These statements provide both long-term and short-term information about the City's overall financial status. The government-wide financial statements are designed to provide readers with a broad overview of the City's finances.
2. *The Fund Financial Statements* – These statements focus on individual parts of the City, reporting the City's operations in more detail than the government-wide statements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives.

The financial statements also include notes that explain some of the information in the financial statements and provide more detail and are essential for the reader's understanding of the financial statements. The remaining statements provide other supplementary information for the reader.

Government-wide financial statements

The government-wide financial statements have been prepared using the accrual basis of accounting. The focus of these statements is the City's long-term financial picture. All of the fiscal year's revenues and expenses have been reported, regardless of when cash is received or disbursed.

The two government-wide statements report the City's net position and how it has changed. Net position is one way to measure the City's financial health.

The Statement of Net Position - reports all of the City's assets and liabilities. Net position, which is the difference between those assets and liabilities, is an important measure of the City's overall financial health. Changes in net position over time help the reader determine whether the City's financial health is improving or deteriorating.

The Statement of Activities - explains how revenues and expenses of the City affected net position during the fiscal year. A unique feature of this statement is how it reports the revenues and expenses of specific programs, and how much of those programs were supported by general revenues such as taxes. To assess the overall health of the City you need to consider additional nonfinancial factors such as the City's tax base and the condition of the City's capital assets.

In preparing for the government-wide financial statements, management has considered all separate legal entities in which the City could be considered financially accountable. There are no component units for which the City is considered to be financially accountable.

Fund financial statements

A fund is a separate entity with a set of self-balancing accounts for the purpose of carrying on specific activities or attaining certain objectives in accordance with regulations, restrictions or limitations. The fund financial statements provide information about the most significant funds, not the City as a whole. The City uses two types of funds to manage its resources: *governmental funds* and *fiduciary funds*.

Governmental funds - All of the City's basic services are reported in governmental funds, which are prepared using the modified accrual basis of accounting. Under the modified accrual basis, revenues are recognized when they become measurable and available, while expenditures are recognized when the related liability is incurred. An exception to this is long-term debt and similar items, which are recorded when due. The focus of these reports is on the short-term financial resources available to the specific function rather than the City as a whole. The reconciliation at the end of the fund financial statements details the relationship between the two types of financial statements.

Fiduciary funds - Resources held by the City for the benefit of a third party are reported in fiduciary funds. Although these resources are not available for operations, and therefore not presented in the government-wide financial statements, the City is responsible for ensuring that the assets reported in these funds are used for their intended purposes.

Notes to the Basic Financial Statements

The notes to the financial statements are an integral part of the basic financial statements, containing valuable information necessary for gaining a better understanding of the City's financial statements.

Required Supplementary Information

In addition to the basic financial statements and notes described above, required supplementary information regarding the City's funding of its Police Pension Plan, Kansas Public Employees Retirement Plan and funding for postemployment benefits other than pensions have been included to give the reader further insight into the City's pension plan results.

Other Supplementary Information

Other supplementary information presents combining and individual statements for non-major funds. The Statistical Section provides statistical data about the City.

Analysis of the Government-wide Financial Statements

The following table provides a summary of the City's net position for 2017 compared to 2016 as of December 31:

	<u>2016</u>	<u>2017</u>	<u>Percentage Change</u>
Current and other assets	\$34,390,661	\$26,744,514	-22.23%
Capital assets	<u>80,402,156</u>	<u>85,074,174</u>	5.81%
Total assets	<u>114,792,817</u>	<u>111,818,688</u>	-2.59%
Total deferred outflows of resources	<u>2,052,468</u>	<u>1,282,596</u>	-37.51%
Long-term liabilities	25,002,124	22,948,040	-8.22%
Current liabilities	1,626,688	1,647,952	1.31%
Other liabilities	<u>2,622,356</u>	<u>2,112,818</u>	-19.43%
Total liabilities	<u>29,251,168</u>	<u>26,708,810</u>	-8.69%
Total deferred inflows of resources	<u>9,626,211</u>	<u>10,726,808</u>	11.43%
Net position:			
Net investment in capital assets	73,191,537	67,639,849	-7.59%
Restricted	1,025,181	1,782,120	73.83%
Unrestricted	<u>3,751,188</u>	<u>6,243,697</u>	66.45%
Total net position	<u>\$77,967,906</u>	<u>\$75,665,666</u>	-2.95%

The City's combined net position decreased by \$2,302,240 or -2.95% from 2016 to 2017. The City's assets and deferred outflows exceeded liabilities and deferred inflows by \$75,665,666 in 2017.

The change in net position as a percentage of assets is a good indicator of the government's financial position. The negative ratio of -2.95% is chiefly a result of the decrease in 2016 unrestricted net position which was affected by the general obligation bond issue for the Meadowbrook redevelopment district and is not an indication that the City's financial condition has declined.

The City's total net position consists of the following three components:

1. Net investment in capital assets. The largest portion of the City's net position (\$67,639,849) represents its investment in capital assets (e.g. land structures and improvements, infrastructure, and equipment); less any related debt used to acquire those assets that is still outstanding. The City uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. The change from 2016 to 2017 is chiefly due to the Meadowbrook General Obligation bond issue in 2016, and an increase in capital assets in 2017. The City also purchased land in 2017 for a park.
2. Restricted net position. The City's restricted net position at year-end was \$1,782,120. Asset restrictions are primarily due to external restrictions imposed by State statutes.

3. Unrestricted net position. The City's unrestricted net position increased from \$3,751,188 in 2016 to \$6,243,697 in 2017 or 66.5%. The increase is mainly due to the Meadowbrook General Obligation bond issue in 2016, and change in the net pension obligation. The Meadowbrook TIF was classified as a Restricted component of net position as much as possible in 2016, and the remainder was classified as Unrestricted. The remaining change is attributable to the unrestricted Capital Improvement fund balance. These funds may be used to meet the City's ongoing obligations.

Statement of Activities

The table below shows the condensed revenues, expenses and changes in net position for 2016 and 2017.

	<u>2016</u>	<u>2017</u>	<u>Change</u>
REVENUES			
Program revenues			
Charges for services	\$ 6,669,774	\$ 6,685,878	0.24%
Operating grants and contributions	959,593	973,036	1.40%
Capital grants and contributions	1,171,001	1,023,968	-12.56%
General revenues:			
Property taxes	6,018,580	6,416,501	6.61%
Sales and use taxes	4,164,134	4,225,105	1.46%
Other taxes	2,677,706	2,669,743	-0.30%
Other revenues	3,205,676	3,686,431	15.00%
Total revenues	<u>\$ 24,866,464</u>	<u>\$ 25,680,662</u>	<u>3.27%</u>

Public safety	6,389,909	6,161,767	-3.57%
Municipal justice	428,880	438,568	2.26%
Leisure, recreation and education	497,183	537,617	8.13%
Interest on long-term debt	599,376	370,530	-38.18%
Total expenses	<u>\$ 25,045,181</u>	<u>\$ 27,982,902</u>	<u>11.73%</u>
Increase (decrease) in net position	\$ (178,717)	\$ (2,302,240)	1188.21%
Net position, January 1	78,146,623	77,967,906	-0.23%
Net position, December 31	<u>\$ 77,967,906</u>	<u>\$ 75,665,666</u>	<u>-2.95%</u>

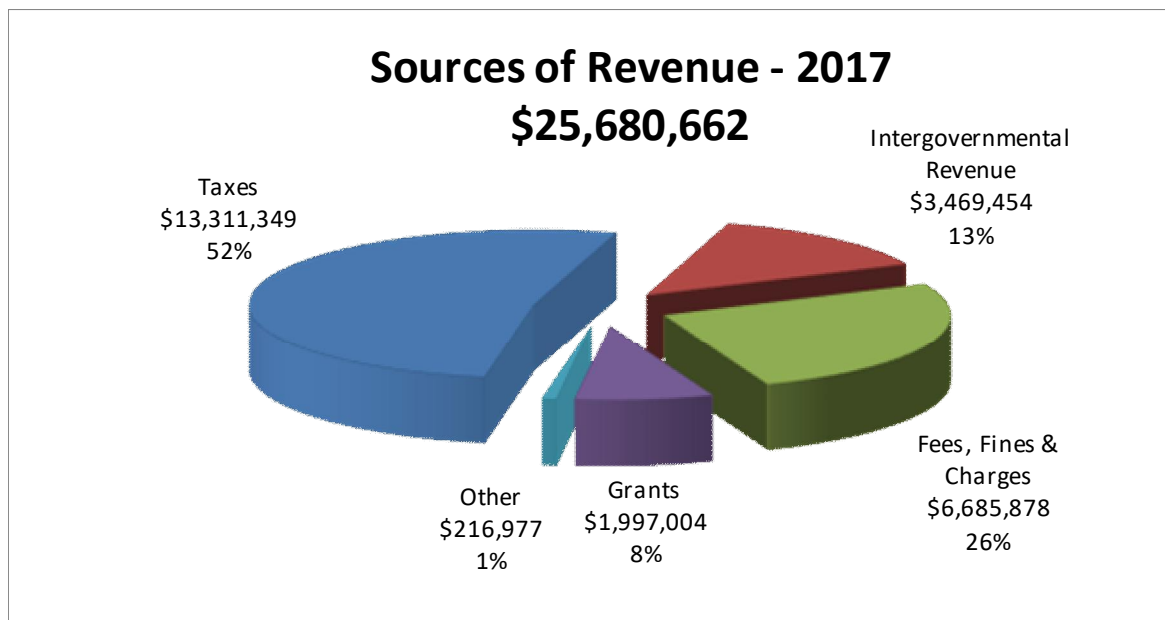

Overall, total revenues increased by 3.27%. The increase is mainly attributable to a increase in assessed valuation and a new shared county sales tax.

Taxes (property, motor vehicle, local sales/use and franchise fees) and intergovernmental revenues (includes shared County sales/use taxes) continue to account for a majority of the City's revenues. Together they account for 65% of total revenues in 2017. Overall, local sales and use taxes increased 2.5%, while County sales and use taxes increased 0.9%. Property taxes increased 6.6% and franchise fees decreased 1.5%. Franchise fees include electric, gas, telephone, cable and open source video companies. The fee is 5% of gross receipts as defined and permitted by state statues. Kansas City Power and Light accounts for the majority of the franchise fees.

Other revenues account for 1% and include investment earnings and any unrealized gains and losses associated with those investments. Actual interest earnings increased 82% during 2017. The gain on disposal of assets increased slightly in 2017 and is included in other revenues.

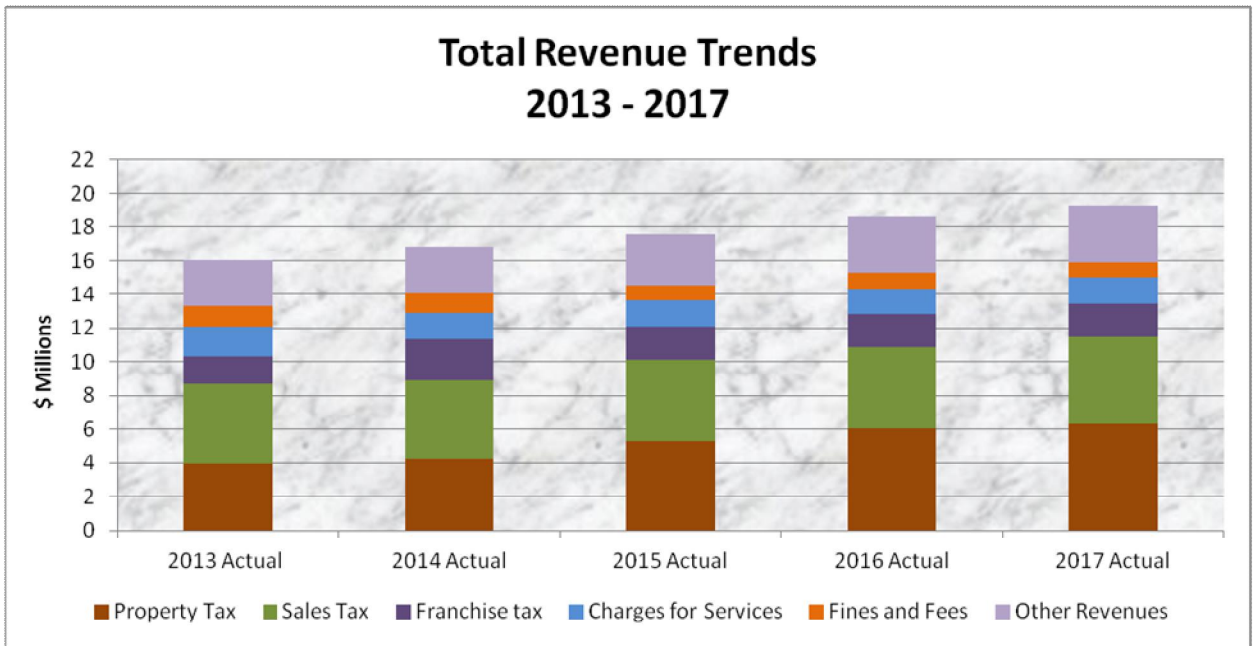

Total expenses for 2017 were higher when compared with 2016, increasing 11.73%. Urban Management and Planning expenses increased 43% over 2016 and reflect activity in the Meadowbrook redevelopment district. Interest on long-term debt decreased in 2017 reflecting bond payment activity. The decrease in Public Works is attributable to contract services and is mainly due to the 2016 Street Light bond issue which was not reflected in the 2017 budget. The 8% increase in Leisure, recreation and education spending reflects an increase in personnel services spending and is primarily related to the City pools.

As illustrated by the following graph, 52% of the City’s revenues are tax-related. Another 26% are directly related to the City’s solid waste management assessments, stormwater assessments and public safety agreement with the City of Mission Hills. Intergovernmental revenues include Liquor, Special Highway, County and specialty sales and use taxes and grant revenue.

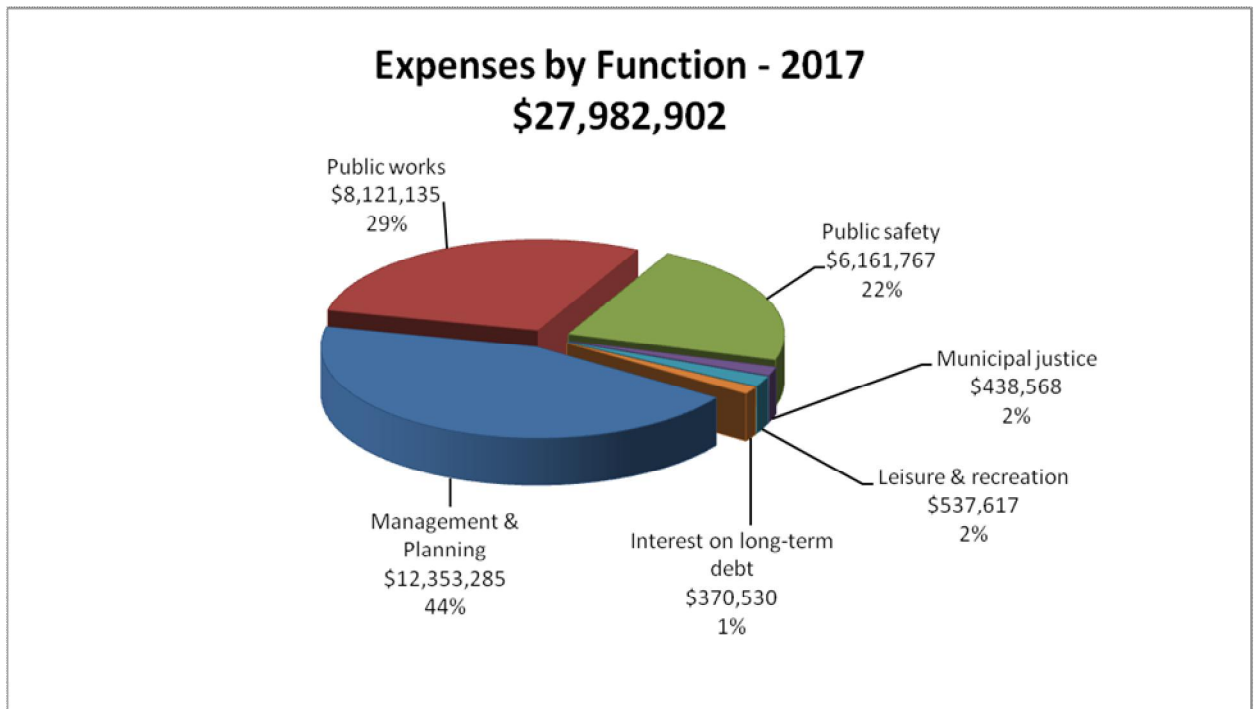

The chart, on the next page, reflects total sources of revenue from 2013 to 2017. The top five sources of revenue in 2017 are broken out below and accounted for 83% of the total revenue received by the City in 2017.

• Property Tax	33%	Total Use Tax	6%
• Total Sales Tax	27%	Motor Vehicle Tax	3%
• Franchise Fees	10%	Licenses & Permits	4%
• Charges for Services	8%	Recreational	2%
• Fines and Fees	<u>5%</u>	Liquor Tax	1%
		Miscellaneous	<u>1%</u>
Total	83%		17%

The graph, below, illustrates that management and planning and public works expenses, which include the depreciation of City infrastructure assets, comprise the largest use of resources.

The net cost of each program is an important indicator of the financial burden placed on revenues, primarily tax sources. As shown on the chart below, \$19.3 million of the cost of services was paid by the City's tax payers. The increase in Urban management and planning reflects activity in the Meadowbrook redevelopment district.

Function/Programs	Total Cost of Services			Net Cost of Services		
	2016	2017	% Chg	2016	2017	% Chg
Governmental activities:						
Urban management and planning	\$ 8,623,968	\$ 12,353,285	43.2%	\$ 6,307,197	\$ 9,992,440	58.4%
Public works	8,505,865	8,121,135	-4.5%	5,677,856	5,464,169	-3.8%
Public safety	6,389,909	6,161,767	-3.6%	3,170,512	2,930,591	-7.6%
Municipal justice	428,880	438,568	2.3%	426,145	434,603	2.0%
Leisure and recreation	497,183	537,617	8.1%	63,727	107,688	69.0%
Interest on long-term debt	599,376	370,530	-38.2%	599,376	370,530	-38.2%
Total governmental activities	\$ 25,045,181	\$ 27,982,902	11.7%	\$ 16,244,813	\$ 19,300,021	18.8%

Additional information about program and general revenues may be found on the Statement of Activities located on page 15.

Analysis of the Fund Financial Statements

General Fund. Fund balance decreased 4% in the General Fund mainly as a result of an increase in transfers to the Capital Improvement Fund. The General Fund includes non-budgeted funds for Equipment Reserve, Risk Management Reserve and Economic Development Reserve. Additional information regarding the fund balance may be found on the Statement of Revenues, Expenditures and Changes in Fund Balances – Budget and Actual-Budgetary Basis – General Fund located on page 22.

Solid Waste Management Fund. The Solid Waste Management Fund is used for solid waste collection, recycling, composting services and large item pickup as well as a portion of the City's administrative cost including personal services and supplies. The City collects the Solid Waste fee through a special assessment on property tax bills. The fund balance decreased 29.5% as a result of excess expenditures over revenues. The City negotiated a new contract for solid waste collections which included an increase in the cost of providing this service and there was also a onetime storm debris pickup that was not included in the budget.

Bond and Interest Fund. The City issued no new debt in 2017. In 2016 the City issued two general obligation bonds. The 2016-A Meadowbrook issue was for the tax increment financing (TIF) district roughly located at 95th and Nall, and the 2016-C bond issue was for the purchase of City streetlights from Kansas City Power and Light (KCP&L). In 2011 the City issued bonds for street infrastructure improvement project expenditures. The City's outstanding debt will be paid off in 2036, provided the City does not issue any new debt or restructure current debt. The outstanding general obligation bonds at December 31, 2017 totaled \$17,125,000.

Stormwater Fund. This fund was established at the end of 2008. It is used to account for the stormwater utility fee and the related stormwater management activities. The stormwater fee appeared on the December 2016 tax bills, the receipts from which are used to fund 2017 operations. All of the funds collected were used in stormwater management activities. The fund balance at December 31, 2017 totaled \$202,732. The balance represents a 18.7% decrease over the 2016 balance due to an increase in the stormwater program and compliance with NPDES guidelines.

Capital Projects Fund. The City’s Capital Projects Fund accounts for major infrastructure improvement project expenditures. The 2.4% decrease in fund balance is a result of a planned increase in infrastructure projects in 2017.

Meadowbrook TIF Fund. The Meadowbrook Tax Increment Financing (TIF) fund is being used to account for the payment of eligible public and private redevelopment costs. The fund will also be used to account for incremental property and sales tax revenues received from the redevelopment district. This was a new fund in 2016. The 2017 ending fund balance of \$536,922 is reserved for debt service.

General Fund Budget

The legally adopted budget for the General Fund was not amended by the City Council during 2017. Departments within the City are allowed to transfer budget between line items within programs and between programs within the department. In addition, allocations of contingency budget are recorded as a budget transfer to the affected program. As a result of these budget transfers, the original budget and the final budget in some programs may not be the same.

The following revenue and expenditure categories experienced significant differences between the final budget amount and the actual amount. The explanation of the difference is also included.

Category	Explanation
Licenses and Permits	Licenses and permit fees increased 23% and is because residential and commercial building permit requests increased. This category also includes admin and retail business licenses.
Fine and Forfeitures	Fine and forfeiture revenue decreased 11% as a result of an decrease in traffic violations, which was a result of unfilled positions in the Police Department.
Recreation Fees	Recreation fees revenue increased 14% as a result of an increase in pool revenues, which was a function of change in pool rates and weather.
Mayor and Council	The budget includes funding for consultants that may be needed by the Council during the year. In 2017, the Council did not utilize the full budget for consultants. In addition, the Council did not utilize the full budget for training and conferences. Actual expenditures were 36% of budgeted expenditures.
Management and Planning	This budget provides overall management of City operations, and coordination of City planning . Personnel costs and contract services were under budget as a result of a change in staff. Actual expenditures were 87% of budgeted expenditures.
Street Operations and Maintenance	Provides for the maintenance and repair of approximately 112 miles of streets, 2800 traffic signs, 93 miles of sidewalks, and 1,530 ADA ramps. Actual expenditures were 74% of budgeted expenditures and is a function of the 2016 Street Light bond issue that was not reflected in the 2017 budget.

Crime Prevention	Personal services, contract services and commodities were lower than budgeted due to a movement of personnel and unfilled positions in 2017. Actual expenditures were 15% of budgeted expenditures.
Special Investigations	Personal services were lower than budgeted due to a movement of personnel in 2017. Actual expenditures were 60% of budgeted expenditures.
Professional Services	Personal services were lower than budgeted due to a movement of personnel in 2017. Actual expenditures were 75% of budgeted expenditures.
Off-Duty Contractual	This program depends on assignments and will vary from year to year. Actual expenditures were 78% of budgeted expenditures.
Prosecutor	This program depends on the number of actual appeals and will vary depending on court needs. Actual expenditures were 87% of budgeted expenditures.
Swimming Pool and Food Service	This program's difference between budget and actual was due to tighter budgeting, more efficient scheduling of pool staff and food inventory procedures. Actual expenditures were 75% of budgeted expenditures.

Capital Assets and Long-Term Debt Activity

Capital Assets. As presented below, the total amount invested in capital assets (net of accumulated depreciation) by the City at December 31, 2017 was \$85 million. Capital assets increased 5.81% from 2016.

	<u>2016</u>	<u>2017</u>	<u>% Change</u>
NETWORK			
Land	\$ 13,861,866	\$ 14,961,866	7.94%
Buildings	3,014,193	2,896,015	-3.92%
Improvements other than buildings	717,548	680,765	-5.13%
Furniture and equipment	2,102,384	1,911,354	-9.09%
Infrastructure	46,536,548	49,131,353	5.58%
Construction in progress	14,169,617	15,492,821	9.34%
Total	<u>\$ 80,402,156</u>	<u>\$ 85,074,174</u>	5.81%

Land increased due to the acquisition of property for a new park in 2017. Improvements other than buildings decreased due to continued depreciation of these assets. Furniture and equipment decreased due to the disposal of older furniture and equipment. Infrastructure increased due to increased project activity in 2017. Construction in progress includes 2017 projects were not completed until early 2018. In conformity with GASB 34, Infrastructure completed in the current year has been capitalized. Infrastructure assets not completed by the year-end have been reported as construction in progress. Additional information regarding the City's capital assets can be found in Note I, as well as Note 5.

Long-term debt activity. As of December 31, 2017, the City had \$17,125,000 of outstanding general obligation bonds. Of the balance outstanding, 37% will be paid off within the next five years.

Attesting to the City’s favorable economic conditions and sound financial management, Prairie Village’s general obligation bond rating remains at Aaa, with a stable outlook. Kansas statutes limit the amount of general obligation debt a government entity to 30% of its total assessed valuation. The current debt limitation for the City is \$109,602,752. Additional information regarding the City’s long-term debt activity can be found in Note 7 of the financial statements.

Outstanding Bonds General Obligation Bonds		
	Governmental Activities	
	2016	2017
General Obligation Bonds:		
Series 2009-A	\$650,000	\$440,000
Series 2011-A	\$3,245,000	\$2,710,000
Series 2016-A	\$11,300,000	\$11,300,000
Series 2016-C	\$3,100,000	\$2,675,000
Total	<u>\$18,295,000</u>	<u>\$17,125,000</u>

Economic Factors

Prairie Village is a land-locked, fully developed suburban city in Johnson County. The City benefits from the growth and development of the county and the region. Commercial properties in Prairie Village consist of five neighborhood shopping centers and several small office buildings. The City has two Community Improvement Districts (CIDs) where two of five the shopping centers are located. The shopping centers provide the City with a stable retail base that includes grocery stores and hardware stores as well as niche boutique shops that draw shoppers into the City. In 2016 the City issued bonds for the Meadowbrook Tax Increment Financing (TIF) district. The redevelopment district is located roughly between Roe and Nall and 95th and Somerset.

- Corinth Community Improvement District (CID)
- Prairie Village Shops Community Improvement District (CID)
- Meadowbrook Tax Increment Financing (TIF)

The City Council and staff remain committed to planning for and providing public services to enhance the quality of life for Prairie Village residents.

Requests for Information

This report is intended to give the reader a general overview of the City’s finances. Questions about information contained in this report or requests for additional information should be directed to the Finance Director, 7700 Mission Rd, Prairie Village, Kansas 66208.

CITY OF PRAIRIE VILLAGE, KANSAS

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES
AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS
TO THE STATEMENT OF ACTIVITIES

Year Ended December 31, 2017

Amounts reported for governmental activities in the statement of activities are different because:

Net change in fund balances - total governmental funds	\$ (7,857,363)
Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense.	4,722,651
The effect of various transactions involving capital assets is to decrease net position.	(50,633)
The issuance of long-term debt (e.g., bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of premiums, discounts and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. This amount is the net effect of these differences in the treatment of long-term debt and related items.	1,170,000
Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds.	(1,183)
Payment of pension contributions is an expenditure in the governmental funds, but reduces the net pension liability in the statement of net position. Additionally, the effects of changes in deferred outflows and deferred inflows for pensions are only recorded in the statement of activities.	<u>(285,712)</u>
Change in net position of governmental activities	<u><u>\$ (2,302,240)</u></u>

See accompanying notes to basic financial statements.

CITY OF PRAIRIE VILLAGE, KANSAS
NOTES TO BASIC FINANCIAL STATEMENTS

December 31, 2017

1 - Summary of Significant Accounting Policies

Reporting Entity

The City of Prairie Village, Kansas (the City) is located in Johnson County and was incorporated in 1951. The City is a city of the first class and operates under a Mayor-Council form of government, providing services to its approximately 22,000 residents in many areas, including urban management and planning; public works; public safety; municipal justice; and parks and community programs.

Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements (i.e. the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the primary government. All nonfiduciary activities of the City are governmental activities.

The statement of activities demonstrates the degree to which the direct expenses of a given function are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. Program revenues include (1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function and (2) grants and contributions that are restricted to use in meeting the operational or capital requirements of a particular function. Internally dedicated resources are reported as general revenues rather than as program revenues. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements.

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

CITY OF PRAIRIE VILLAGE, KANSAS

NOTES TO BASIC FINANCIAL STATEMENTS

(Continued)

1 - Summary of Significant Accounting Policies (Continued)

Measurement Focus, Basis of Accounting, and Financial Statement Presentation (Continued)

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Each fund is considered to be a separate accounting entity, accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund balance, revenues, and expenditures. Governmental resources are allocated to and accounted for within individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled.

Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the City considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences, and claims and judgments, are recorded only when payment is due.

In applying the susceptible to accrual concept to intergovernmental revenues, the legal and contractual requirements of the numerous individual programs are used as guidance. There are, however, essentially two types of these revenues. In one, monies must be expended for the specific purpose or project before any amounts will be paid to the City; therefore, revenues are recognized based upon the expenditures recorded. In the other, monies are virtually unrestricted as to purpose of expenditure and are usually revocable only for failure to comply with prescribed requirements. These resources are reflected as revenues at the time of receipt, or earlier if the susceptible to accrual criteria are met.

Property, sales, utility franchise taxes, interest associated with the current fiscal period, and certain state and federal grants and entitlements are all considered to be susceptible to accrual and have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the City.

While property taxes receivable and special assessments receivable are shown on the balance sheet as current assets of the City, they are not recognized as revenue at year end because statutory provisions prohibit their use until the year for which they were raised and budgeted. Instead, they are offset by unavailable revenue accounts.

CITY OF PRAIRIE VILLAGE, KANSAS
NOTES TO BASIC FINANCIAL STATEMENTS
(Continued)

1 - Summary of Significant Accounting Policies (Continued)

Measurement Focus, Basis of Accounting, and Financial Statement Presentation (Continued)

The Pension Trust Fund is reported using the economic resources measurement focus and the accrual basis of accounting.

The City reports the following major governmental funds:

The *General Fund* is the government's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The *Solid Waste Management Fund* accounts for the operation of the City's solid waste management system, which provides for the collection, storage, and transportation of solid waste in a manner which ensures protection of the health, safety, and welfare of City residents and is funded by the solid waste management fee, a special assessment on all properties in the City based on square feet of impervious area.

The *Bond and Interest Fund* accounts for the accumulation of resources and payment of the City's long-term debt.

The *Stormwater Fund* accounts for the operation of the City's stormwater management program and is funded by the stormwater utility fee, a special assessment on all properties in the City based on square feet of impervious area.

The *Capital Projects Fund* accounts for major infrastructure project expenditures.

The *Meadowbrook Tax Increment Financing (TIF) Fund* accounts for incremental property and sales tax revenues received from this redevelopment district, located roughly between Roe and Nall and 95th and Somerset. The fund accounts for the payment of eligible public and private redevelopment costs, including principal and interest costs. This fund is considered a debt service fund.

Additionally, the City reports the following fiduciary fund type:

The *Pension Trust Fund*, which reports the Revised Prairie Village Police Pension Fund, accumulates the resources for pension benefit payments to qualified public safety employees.

CITY OF PRAIRIE VILLAGE, KANSAS
NOTES TO BASIC FINANCIAL STATEMENTS
(Continued)

1 - Summary of Significant Accounting Policies (Continued)

Measurement Focus, Basis of Accounting, and Financial Statement Presentation (Continued)

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements.

When both restricted and unrestricted resources are available for use, it is the City's policy to use restricted resources first, then unrestricted resources as they are needed.

Deposits and Investments

The City's cash and investments are considered to be demand deposits, time deposits, fixed income securities, mutual funds, money market mutual funds and cash held by the State of Kansas Municipal Investment Pool.

Investments are reported in the accompanying financial statements at fair value, except for certain certificates of deposit that are reported at cost because they are nontransferable, with terms unaffected by changes in market interest rates.

Changes in fair value that occur during the fiscal year are recognized as investment revenue reported for that fiscal year. Investment revenue includes interest earnings, changes in fair value, and any gains or losses realized upon the liquidation, maturity, or sale of investments.

Receivables and Payables

Receivables are reported on the government-wide financial statements net of an allowance for uncollectibles. The largest allowance for uncollectibles is for property taxes, equal to 1.00% of the fiscal year's total property taxes assessment.

Tax statements are mailed November 1 each year and may be paid in full or one-half on or before December 20 with the remaining one-half due on or before May 10 of the following year. Taxes that are unpaid on the due dates are considered delinquent and accrue interest at a per annum rate established by State law until paid or until the property is sold for taxes. Real estate bearing unpaid taxes is advertised for sale on or before August 1 of each year and is sold by the County for taxes and all legal charges on the first Tuesday in September. Properties that are sold and not redeemed within two years after the tax sale are subject to foreclosure sale, except homestead properties which are subject to foreclosure sale after three years.

CITY OF PRAIRIE VILLAGE, KANSAS
NOTES TO BASIC FINANCIAL STATEMENTS
(Continued)

1 - Summary of Significant Accounting Policies (Continued)

Receivables and Payables (Continued)

Personal taxes are due and may be paid in the same manner as real estate taxes, with the same interest applying to delinquencies. If personal taxes are not paid when due, and after written notice has been given, warrants are issued and placed in the hands of the sheriff for collection. If not paid on or before October 1, legal judgment is entered and the delinquent tax becomes a lien on the property. Unless renewed, a non-enforced lien expires five years after it is entered.

Motor vehicle taxes are collected periodically throughout the year concurrently with the renewal of motor vehicle tags based upon the value of such vehicles. Such tax receipts are distributed to all taxing subdivisions, including the State of Kansas, in proportion to the number of mills levied within each taxpayer's tax levy unit.

The City may levy taxes in accordance with the requirements of its adopted budget. Property tax levies are based on the adopted budget of the City and the assessed valuations provided by the County appraiser.

The City also assesses fees for the solid waste and stormwater funds that are collected through the tax statements mailed on November 1 each year.

Governmental funds report unavailable revenue in connection with receivables for revenues that are not considered to be available to liquidate liabilities of the current period. Governmental funds also defer revenue recognition in connection with resources that have been received, but not yet earned. At the end of the current fiscal year, the governmental funds unavailable revenue is reported as follows:

General fund property taxes receivable	\$ 6,855,668
Other governmental funds	200,000
Solid waste management fund other assessments receivable	1,609,152
Stormwater fund other assessments receivable	<u>1,583,516</u>
	<u>\$ 10,248,336</u>

CITY OF PRAIRIE VILLAGE, KANSAS

NOTES TO BASIC FINANCIAL STATEMENTS

(Continued)

1 - Summary of Significant Accounting Policies (Continued)

Prepaid Items

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements. Prepaid items of governmental funds are recorded as expenditures when consumed rather than when purchased.

Restricted Assets

Certain cash and investments are classified as restricted assets on the statement of net position and balance sheet because their use is limited to payment of redevelopment costs, debt service, Municipal Court bonds, fire/explosion cleanup bonds, or employee Section 125 plan expenses.

Capital Assets

Capital assets, which include land, buildings, improvements, equipment, infrastructure assets (e.g. streets, curbs, sidewalks, drainage systems, etc.), and construction in progress are reported in the government-wide financial statements as assets. Capital assets are defined by the City as assets with an initial, individual cost of more than \$ 5,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at acquisition value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized. Preservation costs, which are expected to extend the life of the asset, are capitalized.

Capital assets, excluding land and infrastructure assets, are depreciated using the straight-line method and the estimated asset useful lives listed below. Depreciation expense for infrastructure assets is calculated using a composite rate based on the estimated historical cost and estimated useful lives as follows:

Buildings	40 years
Improvements other than buildings	15 years
Vehicles	2 - 12 years
Office equipment	3 - 25 years
Field equipment	5 - 20 years
Infrastructure	20 - 40 years

1 - Summary of Significant Accounting Policies (Continued)

Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to a future period(s) and so will *not* be recognized as an outflow of resources (expense/expenditure) until then. See Note 8 for more information on the deferred outflows for the pensions.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to a future period(s) and so will *not* be recognized as an inflow of resources (revenue) until that time. The City has two items that qualify for reporting in this category. One item, *unavailable revenue/deferred receivables*, is reported in the governmental funds balance sheet and the governmental activities in the government-wide statement of net position. The governmental funds and governmental activities report unavailable revenues/deferred receivables from two sources: property taxes and other assessments. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available. The other item is deferred inflows for the pensions. See Note 8 for more information on the deferred inflows for the pensions.

Compensated Absences

Full-time City employees earn vacation leave based upon length of service, and unused vacation days can be carried forward to future years with certain limitations. Sick leave is earned at a rate of one day per month of employment. Employees retiring from or terminating their employment with the City are eligible to receive payment for their accumulated vacation and for a portion of their accumulated sick leave.

All vested or accumulated vacation, scheduled holiday leave and sick leave are accrued when incurred in the government-wide financial statements. A liability for these amounts is reported in governmental funds only if they have matured, for example, as a result of employee resignations and retirements. The City estimates that the entire compensated absence liability, as of December 31, 2017, will be due within one year.

CITY OF PRAIRIE VILLAGE, KANSAS

NOTES TO BASIC FINANCIAL STATEMENTS

(Continued)

1 - Summary of Significant Accounting Policies (Continued)

Long-Term Obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities. Bond premiums and discounts are amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

Pensions

For purposes of measuring the collective net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Kansas Public Employees Retirement System (KPERS) and additions to/deductions from KPERS' fiduciary net position have been determined on the same basis as they are reported by KPERS, and information about the fiduciary net position of the Prairie Village, Kansas Police Department Retirement Plan (the Plan) and additions/deductions from the Plan's fiduciary net position have been determined on the same basis as they are reported by the Plan. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. The investments are reported at fair value.

CITY OF PRAIRIE VILLAGE, KANSAS
NOTES TO BASIC FINANCIAL STATEMENTS

1 - Summary of Significant Accounting Policies (Continued)

Fund Balances

As prescribed by GASB Statement No. 54, governmental funds report fund balance classifications based primarily on the extent to which the City is bound to honor constraints on the specific purposes for which amounts in the funds can be spent. As of December 31, 2017, fund balances for governmental funds are made up of the following:

Nonspendable fund balances include amounts that are (a) not in spendable form, or (b) legally or contractually required to be maintained intact. The “not in spendable form” criterion includes items that are not expected to be converted to cash, for example: inventories, prepaid amounts, and long-term notes receivable.

Restricted fund balances include amounts that can be spent only for the specific purposes stipulated by external resource providers, constitutionally, or through enabling legislation. Restrictions may effectively be changed or lifted only with the consent of resource providers.

Committed fund balances include amounts that can only be used for specific purposes determined by a formal action, an ordinance, of the City’s highest level of decision-making authority, the City Council. Commitments may be changed or lifted only by the City Council taking the same formal action, an ordinance, that originally imposed the constraint.

Assigned fund balances include amounts intended to be used by the City for specific purposes that are neither restricted nor committed. The City Council authorizes by resolution the City Administrator to assign fund balances. Unlike commitments, assignments generally only exist temporarily. In other words, an additional action does not normally have to be taken for the removal of the assignment.

Unassigned fund balances are used as the residual classification for the General Fund and include all amounts not contained in other classifications. The General Fund is the only fund that can report a positive unassigned fund balance amount. Unassigned amounts are technically available for any purpose.

In circumstances when an expenditure is made for a purpose for which amounts are available in multiple fund balance classifications, fund balance is depleted in the order of restricted, committed, assigned, and unassigned.

Fund Balances (Continued)

Net Position

In the government-wide financial statements, equity is displayed in three components as follows:

Net Investment in Capital Assets consists of capital assets, net of accumulated depreciation, less the outstanding balances of any bonds, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.

Restricted consists of net position that is legally restricted by outside parties or by law through constitutional provisions or enabling legislation. Restricted net position includes \$ 232,978 for enabling legislation.

Unrestricted consists of net position that does not meet the definition of “restricted” or “net investment in capital assets.”

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, deferred outflows of resources, liabilities, and deferred inflows of resources and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

CITY OF PRAIRIE VILLAGE, KANSAS

1 - Summary of Significant Accounting Policies (Continued)

Pending Governmental Accounting Standards Board Statements

At December 31, 2016, the Governmental Accounting Standards Board (GASB) had issued several statements not yet implemented by the City. The statements that might impact the City are as follows:

GASB Statement No. 75, *Accounting and Financial Reporting by Employers for Post-Employment Benefits Other Than Pensions*, replaces the requirements of GASB Statement No. 45, *Accounting and Financial Reporting by Employers for Post-Employment Benefits Other Than Pensions*, and requires governments to report a liability on the face of the financial statements for the OPEB that they provide. Statement No. 75 requires governments in all types of OPEB plans to present more extensive note disclosures and required supplementary information (RSI) about the OPEB liabilities. Among the new note disclosures is a description of the effect on the reported OPEB liability of using a discount rate and a healthcare cost trend rate that are one percentage point higher and one percentage point lower than assumed by the government. The new RSI includes a schedule showing the causes of increases and decreases in the OPEB liability and a schedule comparing a government's actual OPEB contributions to its contribution requirements. The provisions of this statement are effective for periods beginning after June 15, 2017.

GASB Statement No. 84, *Fiduciary Activities*, improves guidance regarding the identification of fiduciary activities for accounting and financial reporting purposes and how those activities should be reported. The statement establishes criteria for identifying fiduciary activities, with the focus of the criteria on (1) whether a government is controlling the assets of the fiduciary activity and (2) the beneficiaries with whom a fiduciary relationship exists. An activity meeting the criteria should be reported in a fiduciary fund. The requirements of this statement are effective for periods beginning after December 15, 2018.

CITY OF PRAIRIE VILLAGE, KANSAS
NOTES TO BASIC FINANCIAL STATEMENTS
(Continued)

1 - Summary of Significant Accounting Policies (Continued)

Pending Governmental Accounting Standards Board Statements (Continued)

GASB Statement No. 85, *Omnibus 2017*, addresses practice issues that have been identified during implementation and application of certain GASB Statements, including issues related to blending component units, goodwill, fair value measurement and application, and postemployment benefits. The requirements of this statement are effective for periods beginning after June 15, 2017.

GASB Statement No. 87, *Leases*, requires recognition of certain lease assets and liabilities for leases that were previously classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. It establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. Under this Statement, a lessee is required to recognize a lease liability and an intangible right-to-use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources, thereby enhancing the relevance and consistency of information about governments' leasing activities. The requirements of this statement are effective for periods beginning after December 15, 2019.

CITY OF PRAIRIE VILLAGE, KANSAS
NOTES TO BASIC FINANCIAL STATEMENTS

2 - Reconciliation of Government-wide and Fund Financial Statements

Explanation of Certain Differences Between the Governmental Fund Balance Sheet and the Government-Wide Statement of Net Position

The governmental fund balance sheet includes a reconciliation between fund balance – total governmental funds and net position of governmental activities as reported in the government-wide statement of net position. One element of that reconciliation explains that “Long-term liabilities, including bonds payable, are not due and payable in the current period and therefore are not reported in the funds.” The details of this \$ (24,738,104) difference are as follows:

Bonds payable	\$ (17,125,000)
Issuance premium	(309,325)
Accrued interest payable	(142,112)
Compensated absences	(472,952)
Other postemployment benefits	(34,614)
Net pension liability	<u>(6,654,101)</u>
 Net adjustment to reduce fund balance - total governmental funds to arrive at net position - governmental activities	 <u><u>\$ (24,738,104)</u></u>

CITY OF PRAIRIE VILLAGE, KANSAS
 NOTES TO BASIC FINANCIAL STATEMENTS
 (Continued)

2 - Reconciliation of Government-wide and Fund Financial Statements (Continued)

Explanation of Certain Differences Between the Governmental Fund Statement of Revenues, Expenditures, and Changes in Fund Balances and the Government-Wide Statement of Activities

The governmental fund statement of revenues, expenditures, and changes in fund balances includes a reconciliation between net change in fund balances – total governmental funds and change in net position of governmental activities as reported in the government-wide statement of activities. One element of the reconciliation explains that “Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense.” The details of this \$ 4,722,651 difference are as follow:

Capital outlay	\$ 7,969,012
Depreciation expense	<u>(3,246,361)</u>
 Net adjustment to increase net change in fund balances - total governmental funds to arrive at change in net position of governmental activities	 <u><u>\$ 4,722,651</u></u>

CITY OF PRAIRIE VILLAGE, KANSAS
NOTES TO BASIC FINANCIAL STATEMENTS
(Continued)

2 - Reconciliation of Government-wide and Fund Financial Statements (Continued)

Explanation of Certain Differences Between the Governmental Fund Statement of Revenues, Expenditures, and Changes in Fund Balances and the Government-Wide Statement of Activities (Continued)

Another element of that reconciliation states that “The issuance of long-term debt (e.g. bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statements of activities. This amount is the net effect of these differences in the treatment of long-term debt and related items.” The details of this \$ 1,170,000 difference are as follows:

Principal repayments:	
General obligation debt	<u>\$ 1,170,000</u>
Net adjustment to increase net change in fund balances - total governmental funds to arrive at change in net position of governmental activities	<u>\$ 1,170,000</u>

Another element of that reconciliation states that “Some expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds.” The details of this \$ (1,183) difference are as follows:

Compensated absences	\$ (16,264)
Other postemployment benefits	(3,687)
Amortization of bond premium	24,987
Accrued interest	<u>(6,219)</u>
Net adjustment to reduce net change in fund balances - total governmental funds to arrive at change in net position of governmental activities	<u>\$ (1,183)</u>

CITY OF PRAIRIE VILLAGE, KANSAS

NOTES TO BASIC FINANCIAL STATEMENTS

(Continued)

3 - Stewardship, Compliance, and Accountability

Budgetary Information

Kansas statutes require that an annual operating budget be legally adopted for the general fund, special revenue funds (unless specifically exempted by statute), and the debt service fund. The statutes provide for the following sequence and timetable in the adoption of the legal annual operating budget:

1. Preparation of the budget for the succeeding calendar year on or before August 1st.
2. Publication in the local newspaper of the proposed budget and notice of public hearing on the budget on or before August 5th.
3. Public hearing on or before August 15th, but at least ten days after publication of the notice of hearing.
4. Adoption of the final budget on or before August 25th.

The statutes allow for the governing body to increase the originally adopted budget for previously unbudgeted increases in revenue other than ad valorem property taxes. To do this, a notice of public hearing to amend the budget must be published in the local newspaper. At least ten days after publication the hearing may be held and the governing body may amend the budget at that time.

The statutes permit management to transfer budgeted amounts between line items within an individual fund. However, such statutes prohibit expenditures in excess of the total amount of the adopted budget of expenditures of individual funds. Budget comparison statements are presented for each fund showing actual receipts and expenditures compared to legally budgeted receipts and expenditures.

All legal annual operating budgets are prepared using the modified accrual basis of accounting, modified further by the encumbrance method of accounting. Revenues are recognized when cash is received. Expenditures include disbursements, accounts payable, and encumbrances. Encumbrances are commitments by the City for future payments and are supported by a document evidencing the commitment, such as a purchase order or contract. All unencumbered appropriations (legal budget expenditure authority) lapse at year end. Encumbered appropriations are carried forward.

A legal operating budget is not required for the Grant Fund, TIF Fund, Capital Projects Fund, Meadowbrook Tax Increment Financing Fund, or the fiduciary fund.

CITY OF PRAIRIE VILLAGE, KANSAS
NOTES TO BASIC FINANCIAL STATEMENTS
(Continued)

3 - Stewardship, Compliance, and Accountability (Continued)

Budgetary Information (Continued)

Expenditures did not exceed appropriations in any of the budgeted funds.

Spending in funds which are not subject to the legal annual operating budget requirements is controlled by federal regulations, other statutes, or by the use of internal spending limits established by the governing body.

The City uses encumbrances to control expenditure commitments for the year and to enhance cash management. Encumbrances represent commitments related to executory contracts not yet performed and purchase orders not yet filled. Commitments for such expenditure of monies are encumbered to reserve a portion of applicable appropriations. Encumbrances still open at year-end are not accounted for as expenditures and liabilities, but, rather, as a restricted, committed, or assigned fund balance. At December 31, 2017, the City's recorded encumbrances in governmental funds were as follows:

General fund	<u>\$ 521,421</u>
--------------	-------------------

4 - Deposits and Investments

Deposits

Custodial Credit Risk - Deposits

Custodial credit risk is the risk that in the event of a bank failure, the City's deposits may not be returned to it. Kansas statutes require that deposits be collateralized, and that collateral pledged must have a fair market value equal to 100% of the deposits and investments, less insured amounts, and must be assigned for the benefit of the City. The City's deposit policy for custodial credit risk requires that the depository banks will maintain 100% security in the form of FDIC coverage and pledged collateral according to K.S.A. 9-1402. If any mortgage is involved in the underlying value of the instruments pledged as security by an institution, City funds should be collateralized at market to 120% of total investment.

CITY OF PRAIRIE VILLAGE, KANSAS
NOTES TO BASIC FINANCIAL STATEMENTS
(Continued)

4 - Deposits and Investments (Continued)

Deposits (Continued)

Custodial Credit Risk – Deposits (Continued)

The City’s cash is considered to be active funds by management and is invested according to K.S.A. 9-1401. The statute requires that banks eligible to hold active funds have a main or branch bank in the county or adjoining county in which the City is located and the banks provide an acceptable rate for active funds.

The City maintains a cash and investment pool that is available for use by all funds. Each fund’s portion of this pool is included in cash and investments on the balance sheet. At December 31, 2017, the City’s carrying amount of deposits, including certificates of deposit, was not exposed to custodial credit risk.

Investments

On December 31, 2017, the City’s investments were as follows:

Investment Type	Fair Value	Rating	Maturity (in Years)

CITY OF PRAIRIE VILLAGE, KANSAS
NOTES TO BASIC FINANCIAL STATEMENTS
(Continued)

4 - Deposits and Investments (Continued)

Investments (Continued)

Credit Risk

Various City investments are considered to be idle funds by management and are invested according to K.S.A. 12-1675. The statute requires that the City invest its idle funds in only temporary notes of the City, bank certificates of deposit, repurchase agreements, and if eligible banks do not offer an acceptable rate for the fund: U.S. Treasury bills or notes or the Kansas Municipal Investment Pool (the KMIP). The City's investments in the KMIP were not rated by a rating agency as of December 31, 2017. Maturities of the above investments may not exceed two years by statute, except for certain bond proceeds and monies used to implement the City's multi-year capital improvements program.

The KMIP is under the oversight of the Pooled Money Investment Board (the Board). The Board is comprised of the State Treasurer and four additional members appointed by the State Governor. The Board reports annually to the Kansas legislature. State pooled monies may be invested in direct obligations of, or obligations that are insured as to principal and interest by the U.S. government or any agency thereof, with maturities up to four years. No more than ten percent of those funds may be invested in mortgage-backed securities. In addition, the State pool may invest in repurchase agreements with Kansas banks or with primary government securities dealers. The fair value of the City's position in the KMIP is substantially the same as the value of the pool shares.

Some of the City's investments are of bond proceeds invested pursuant to K.S.A. 10-131. This statute allows additional investment authority beyond that of K.S.A. 12-1675. Investments of bond proceeds may follow K.S.A. 12-1675 or include other investments such as the KMIP, direct obligations of the U.S. government or any agency thereof, investment agreements with a financial institution, the obligations of which, at the time of investment, are rated in either of the three highest rating categories by Moody's investors service or Standard and Poor's corporation, and various other investments as specified in K.S.A. 10-131.

CITY OF PRAIRIE VILLAGE, KANSAS
NOTES TO BASIC FINANCIAL STATEMENTS
(Continued)

4 - Deposits and Investments (Continued)

Investments (Continued)

Credit Risk (Continued)

The Pension Trust Fund investments are held by a bank's trust department in the City's name. By City policy, investments should be rated A or higher. Corporate debt securities should be of investment grade or better and only domestic fixed income securities are allowed. No more than ten percent of the fair value of the fixed income portion of the portfolio can be invested in any obligation of a single issuer, except for the U.S. Government and its agencies. In regard to interest rate risk, the portfolio duration will not vary from the duration of the benchmark by plus or minus 20 percent.

Interest Rate Risk

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. As a means of managing its exposure to fair value losses arising from increasing interest rates, the City has a formally adopted investment policy that limits investment maturities. The policy states that the City must attempt to match investments with anticipated cash flow requirements.

Concentrations of Credit Risk

City policy states that funds held in the General Fund and other funds shall be diversified to eliminate the risk of loss resulting from over concentration of assets in a specific maturity, a specific issuer, or a specific class of securities. Diversification strategies shall be established, with periodic review and revision, as appropriate. Before a significant change in type of investments is made, staff will consult with the Finance Committee.

CITY OF PRAIRIE VILLAGE, KANSAS
NOTES TO BASIC FINANCIAL STATEMENTS
(Continued)

4 - Deposits and Investments (Continued)

Investments (Continued)

In establishing specific diversification strategies, the following general policies and constraints will apply:

Maturities will be staggered in a way that avoids undue concentration of assets in a specific maturity sector. Maturities will be selected which provide for income stability and reasonable liquidity.

For short term cash management fund liquidity, investment practices will be followed which ensure that funds required for the next disbursement date and payroll date are covered through maturing investments or marketable U.S. Treasury securities.

Custodial Credit Risk - Investments

For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the City will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. At December 31, 2017, the City's investments were not exposed to custodial credit risk.

Fair Value Measurement – The City categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

The KMIP was valued using net asset value. Investments that are measured at net asset value are not classified in the fair value hierarchy.

6 - Interfund Receivables, Payables, and Transfers

Transfers to fund capital projects, insurance reserves, and economic development activities by fund for the year were as follows:

Transfers out	Transfers in			Total
	General Fund	Bond and Interest Fund	Capital Projects Fund	
General fund	\$ -	\$ 480,696	\$ 4,100,000	\$ 4,580,696
Stormwater fund	400,000	242,608	1,000,000	1,642,608
Nonmajor governmental funds	-	-	743,197	743,197
	<u>\$ 400,000</u>	<u>\$ 723,304</u>	<u>\$ 5,843,197</u>	<u>\$ 6,966,501</u>

7 - Long-Term Debt

General Obligation Bonds

The City issues general obligation bonds to provide funds for the acquisition and construction of major capital facilities such as the swimming pool, various public parks, and the public safety facility.

General obligation bonds payable at December 31, 2017 are comprised of the following issues:

	Interest Rates	Original Issue	Final Maturity	Principal Payments During 2017	Outstanding December 31, 2017
General obligation bonds:					
Series 2009-A	3.00%	\$ 10,085,000	9/1/2019	\$ 210,000	\$ 440,000
Series 2011-A	1.45 - 2.00%	4,555,000	9/1/2021	535,000	2,710,000
Series 2016-A	2.00 - 5.00%	11,300,000	3/1/2036	-	11,300,000
Series 2016-C	2.00 - 3.00%	3,100,000	9/1/2023	425,000	2,675,000
				<u>\$ 1,170,000</u>	<u>\$ 17,125,000</u>

7 - Long-Term Debt (Continued)

General Obligation Bonds (Continued)

Call provisions at the option of the City included in the above bonds are as follows:

Series 2009-A: Callable September 1, 2014 at par plus accrued interest
Series 2011-A: Callable September 1, 2016 at par plus accrued interest
Series 2016-A: Callable March 1, 2022 at par plus accrued interest

The installment ranges for the general obligation bonds are as follows:

	Installment Range	
	Low	High
General obligation bonds:		
Series 2009-A	\$ 215,000	\$ 225,000
Series 2011-A	540,000	815,000
Series 2016-A	100,000	935,000
Series 2016-C	420,000	475,000

Annual debt service requirements through maturity for general obligation bonds are as follows:

Year	Principal	Interest	Total
2018	\$ 1,175,000	\$ 425,163	\$ 1,600,163
2019	1,210,000	402,483	1,612,483
2020	1,335,000	375,475	1,710,475
2021	1,540,000	338,250	1,878,250
2022	1,055,000	289,775	1,344,775
2023 - 2027	3,760,000	1,103,175	4,863,175
2028 - 2032	3,890,000	702,400	4,592,400
2033 - 2036	3,160,000	166,988	3,326,988
Total	\$ 17,125,000	\$ 3,803,709	\$ 20,928,709

7 - Long-Term Debt (Continued)

Meadowbrook TIF Project

During 2016, the City issued \$ 11,300,000 in Series 2016-A general obligation bonds for the Meadowbrook TIF Project. This redevelopment project will support an 80-acre public park and a 50-acre private development on the site of the former golf course. The bonds constitute a general obligation of the City; however, incremental property tax and transient guest tax receipts will be captured from the private development, and the City has pledged those receipts, in part, to repay the bonds.

Change in Long-Term Liabilities

Long-term liability activity for the year ended December 31, 2017 was as follows:

	Balance December 31, 2016	Additions	Reductions	Balance December 31, 2017	Current Portion
Governmental activities:					
Bonds payable:					
General obligation bonds	\$ 18,295,000	\$ -	\$ 1,170,000	\$ 17,125,000	\$ 1,175,000
Premium	334,312	-	24,987	309,325	-
Total bonds payable	18,629,312	-	1,194,987	17,434,325	1,175,000
Compensated absences	456,688	555,356	539,092	472,952	472,952
Other postemployment benefits	30,927	10,395	6,708	34,614	-
Net pension liability	7,511,885	-	857,784	6,654,101	-
	<u>\$ 26,628,812</u>	<u>\$ 565,751</u>	<u>\$ 2,598,571</u>	<u>\$ 24,595,992</u>	<u>\$ 1,647,952</u>

For the governmental activities, compensated absences, the other post-employment benefit obligation, and the net pension liability are generally liquidated by the general, solid waste management, and special alcohol funds.

CITY OF PRAIRIE VILLAGE, KANSAS
NOTES TO BASIC FINANCIAL STATEMENTS
(Continued)

7 - Long-Term Debt (Continued)

Conduit Debt Obligations

The City issued debt for economic development in prior years. This debt is issued for the benefit of third parties, and the City has no obligation beyond the initial lease or loan which has been assigned to various financial or banking entities. Therefore, the bonds are not reported as a liability in the accompanying financial statements. The following is a list of the outstanding bonds as of December 31, 2017:

Bond Issue	Interest Rate	Date Issue	Original Issue Amount	Final Maturity	Balance Outstanding
Claridge Court	8.50 - 8.75%	8/28/2003	\$ 9,410,000	8/1/2023	\$ 9,410,000
MB-18, LLC	2.00%	5/17/2016	22,500,000	12/31/2019	22,500,000

The City issued special obligation bonds during the year ended December 31, 2016. This debt is to be paid solely from incremental property tax generated by the private development of the Meadowbrook TIF project. Therefore, the bond is not reported as a liability in the accompanying financial statements. The following is a description of the outstanding special obligation bond as of December 31, 2017:

Bond Issue	Interest Rate	Date Issue	Original Issue Amount	Final Maturity	Balance Outstanding
Meadowbrook	6.00%	5/17/2016	\$ 8,135,000	3/1/2036	\$ 8,135,000

8 - Employee Retirement Systems and Defined Benefit Pension Plans

Pension Plans

All employees of the City, after meeting eligibility requirements, are covered under the Kansas Public Employees Retirement System (KPERS), except commissioned police officers, who are covered by the Prairie Village, Kansas Police Department Retirement Plan (the Plan). The Plan is accounted for as a separate Pension Trust Fund, while KPERS is administered by the State of Kansas. Each plan is described below.

Kansas Public Employees Retirement System

General Information About the Pension Plan

Description of Pension Plan

The City participates in a cost-sharing multiple-employer defined benefit pension plan (the Pension Plan), as defined in Governmental Accounting Standards Board Statement No. 67, *Financial Reporting for Pension Plans*. The Pension Plan is administered by the Kansas Public Employees Retirement System (KPERS), a body corporate and an instrumentality of the State of Kansas. KPERS provides benefit provisions to the following statewide pension groups under one plan, as provided by K.S.A. 74, article 49:

- Public employees, which include:
 - State/School employees
 - Local employees
- Police and firemen
- Judges

Substantially all public employees in Kansas are covered by the Pension Plan. Participation by local political subdivisions is optional, but irrevocable once elected.

Those employees participating in the Pension Plan for the City are included in the Local employees group.

KPERS issues a stand-alone comprehensive annual financial report, which is available on the KPERS website at www.kpers.org.

CITY OF PRAIRIE VILLAGE, KANSAS

8 - Employee Retirement Systems and Defined Benefit Pension Plans (Continued)

Kansas Public Employees Retirement System (Continued)

General Information About the Pension Plan (Continued)

Benefits Provided

KPERS provides retirement benefits, life insurance, disability income benefits, and death benefits. Benefits are established by statute and may only be changed by the Kansas Legislature. Member employees (except police and firemen) with ten or more years of credited service may retire as early as age 55 (police and firemen may be age 50 with 20 years of credited service), with an actuarially reduced monthly benefit. Normal retirement is at age 65, age 62 with ten years of credited service, or whenever an employee's combined age and years of credited service equal 85 points (police and firemen normal retirement ages are age 60 with 15 years of credited service, age 55 with 20 years, age 50 with 25 years, or any age with 36 years of service).

Monthly retirement benefits are based on a statutory formula that includes final average salary and years of service. When ending employment, member employees may withdraw their contributions from their individual accounts, including interest. Member employees who withdraw their accumulated contributions lose all rights and privileges of membership. For all pension coverage groups, the accumulated contributions and interest are deposited into and disbursed from the membership accumulated reserve fund as established by K.S.A. 74-4922.

Member employees choose one of seven payment options for their monthly retirement benefits. At retirement a member employee may receive a lump-sum payment of up to 50% of the actuarial present value of the member employee's lifetime benefit. His or her monthly retirement benefit is then permanently reduced based on the amount of the lump sum. Benefit increases, including ad hoc post-retirement benefit increases, must be passed into law by the Kansas Legislature. Benefit increases are under the authority of the Legislature and the Governor of the State of Kansas.

The 2012 Legislature made changes affecting new hires, current members, and employers. A new KPERS 3 cash balance retirement plan for new hires starting January 1, 2015, was created. Normal retirement age for KPERS 3 members is 65 with five years of service or 60 with 30 years of service. Early retirement is available at age 55 with ten years of service, with a reduced benefit. Monthly benefit options are an annuity benefit based on the account balance at retirement.

For all pension coverage groups, the retirement benefits are disbursed from the retirement benefit payment reserve fund as established by K.S.A. 74-4922.

Contributions

K.S.A. 74-4919 and K.S.A. 74-49,210 establish the KPERS member-employee contribution rates. KPERS has multiple benefit structures and contribution rates depending on whether the employee is a KPERS 1, KPERS 2, or KPERS 3 member. KPERS 1 members are active and contributing members hired before July 1, 2009. KPERS 2 members were first employed in a covered position on or after July 1, 2009, and KPERS 3 members were first employed in a covered position on or after January 1, 2015. Effective January 1, 2015, Kansas law established the KPERS member-employee contribution rate at 6.00% of covered salary for KPERS 1, KPERS 2, and KPERS 3 members. Member contributions are withheld by their employer and paid to KPERS according to the provisions of Section 414(h) of the Internal Revenue Code.

State law provides that the employer contribution rates are determined based on the results of an annual actuarial valuation for each of the three state-wide pension groups. The contributions and assets of all groups are deposited in the Kansas Public Employees Retirement Fund established by K.S.A. 74-4921. KPERS is funded on an actuarial reserve basis.

For KPERS fiscal years beginning in 1995, Kansas legislation established statutory limits on increases in contribution rates for KPERS employers. Annual increases in the employer contribution rates related to subsequent benefit enhancements are not subject to these limitations. The statutory cap increase over the prior year contribution rate is 1.20% of total payroll for the KPERS fiscal year ended June 30, 2017.

The actuarially determined employer contribution rate (not including the 1.00% contribution rate for the Death and Disability Program) and the statutory contribution rate were 8.46% for the year ended December 31, 2017. Contributions to the Pension Plan from the City were \$ 302,490 for the year ended December 31, 2017.

8 - Employee Retirement Systems and Defined Benefit Pension Plans (Continued)

Kansas Public Employees Retirement System (Continued)

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At December 31, 2017, the City reported a liability of \$ 2,736,770 for its proportionate share of the KPERS collective net pension liability. The collective net pension liability was measured by KPERS as of June 30, 2017, and the total pension liability used to calculate the collective net pension liability was determined by an actuarial valuation as of December 31, 2016, which was rolled forward to June 30, 2017. Although KPERS administers one cost-sharing multiple-employer defined benefit pension plan, separate (sub) actuarial valuations are prepared to determine the actuarial determined contribution rate by group. Following this method, the measurement of the collective net pension liability, deferred outflows of resources, deferred inflows of resources, and pension expense are determined separately for each of the following groups of the plan:

- State/School
- Local
- Police and firemen
- Judges

To facilitate the separate (sub) actuarial valuations, KPERS maintains separate accounts to identify additions, deductions, and fiduciary net position applicable to each group. The allocation percentages presented for each group in the schedule of employer and nonemployer allocations are applied to amounts presented in the schedules of pension amounts by employer and nonemployer. The City's proportion of the collective net pension liability was based on the ratio of the City's actual contributions to KPERS, relative to the total employer and nonemployer contributions of the Local group within KPERS for the KPERS fiscal year ended June 30, 2017. The contributions used exclude contributions made for prior service, excess benefits, and irregular payments. At June 30, 2017 the City's proportion was 0.188944%, which was an increase of 0.002968% from its proportion measured as of June 30, 2016.

NOTES TO BASIC FINANCIAL STATEMENTS
(Continued)

8 - Employee Retirement Systems and Defined Benefit Pension Plans (Continued)

Kansas Public Employees Retirement System (Continued)

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (Continued)

The \$ 144,168 reported as deferred outflows of resources related to pensions resulting from the City's contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability for the year ended December 31, 2018. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ended June 30,		
2018	\$	19,446
2019		127,775
2020		91,299
2021		(16,845)
2022		11,579
		\$ 233,254

Actuarial Assumptions

The total pension liability for KPERS in the December 31, 2016 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Price inflation	2.75 percent
Wage inflation	3.50 percent
Salary increases, including price inflation	3.50 to 12.00 percent, including inflation
Long-term rate of return net of investment expense, and including price inflation	7.75 percent

8 - Employee Retirement Systems and Defined Benefit Pension Plans (Continued)

Kansas Public Employees Retirement System (Continued)

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (Continued)

Actuarial Assumptions (Continued)

Mortality rates were based on the RP-2014 Mortality Tables, with age setbacks and age set forwards as well as other adjustments based on different membership groups. Future mortality improvements are anticipated using scale MP-2016. Different adjustments apply to pre-retirement versus post-retirement versus post-disability mortality tables.

The actuarial assumptions used in the December 31, 2016 valuation were based on the results of an actuarial experience study, which covered the three-year period of January 1, 2013 through December 31, 2015.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the Pension Plan's target asset allocations as of June 30, 2017 are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Global equity	47%	6.85%
Fixed income	13%	1.25%
Yield driven	8%	6.55%
Real return	11%	1.71%
Real estate	11%	5.05%
Alternatives	8%	9.85%
Short-term investments	2%	(0.25%)
	100%	
Total

8 - Employee Retirement Systems and Defined Benefit Pension Plans (Continued)

Kansas Public Employees Retirement System (Continued)

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (Continued)

Discount rate

The discount rate used by KPERS to measure the total pension liability was 7.75%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the contractually required rate. The Local employers do not necessarily contribute the full actuarial determined rate. Based on legislation passed in 1993, the employer contribution rates certified by the KPERS Board of Trustees for this group may not increase by more than the statutory cap. The expected KPERS employer statutory contribution was modeled for future years, assuming all actuarial assumptions are met in future years. Based on those assumptions, the Pension Plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the City's Proportionate Share of the Collective Net Pension Liability to Changes in the Discount Rate

The following presents the City's proportionate share of the collective net pension liability calculated using the discount rate of 7.75%, as well as what the City's proportionate share of the collective net pension liability would be if it were calculated using a discount rate that is one-percentage-point lower (6.75%) or one-percentage-point higher (8.75%) than the current rate:

	1% Decrease (6.75%)	Current Discount Rate (7.75%)	1% Increase (8.75%)
	<hr/>	<hr/>	<hr/>
City's proportionate share of the collective net pension liability	\$ 3,941,547	\$ 2,736,770	\$ 1,721,190

Prairie Village, Kansas Police Department Retirement Plan

Plan Description

Plan Administration

The City of Prairie Village, Kansas established and appointed the City of Prairie Village Police Pension Board of Trustees (the Pension Board) with responsibility to manage and administer the Prairie Village, Kansas Police Department Retirement Plan (the Plan), a single-employer defined benefit pension plan. The Plan provides pension benefits to eligible full-time commissioned law enforcement officers of the City who have been continually employed by the City for at least one year.

The Pension Board is composed of three members, with two of the members designated by the City and one member designated by the employees.

The Plan does not issue a stand-alone financial report but is included as a pension trust fund of the City.

CITY OF PRAIRIE VILLAGE, KANSAS
 NOTES TO BASIC FINANCIAL STATEMENTS

Prairie Village, Kansas Police Department Retirement Plan (Continued)

Plan Description (Continued)

Plan Membership

As of January 1, 2017, pension plan membership consisted of the following:

Inactive plan members (or beneficiary) currently receiving benefits	44
Inactive plan members entitled to but not yet receiving benefits	12
Active plan members	44
	100

Benefits Provided

Retirement benefits for members are calculated as 2.5% of the member's three-year final average salary times the member's years of service (capped at 25). Plan members may retire at age 55 with five years of service or at any age with 20 years of service.

Disability retirement benefits are determined in the same manner as retirement benefits and are payable immediately with an actuarial reduction. Death benefits are determined as a lump sum of the actuarial value of the member's accrued benefit reduced by any life insurance proceeds provided by the City.

The Pension Board reserves the right to amend the provisions of the Plan.

Contributions

Members contribute 4.0% of annual earnings (8.0% after 25 years of service). The City makes annual contributions based on a recommendation by an independent actuary. The five-year average contribution rate for plan years beginning 2013-2017 is 18.17% of annual payroll.

City contributions are authorized by local ordinances. The City may terminate the Plan or its contributions at any time. The actual employer contribution to the Plan during the year ended December 31, 2017 was \$ 550,000.

Investments

Investment Policy

Investment decisions are governed by the Pension Board. The objective of the Plan's investment policy is to provide present and future retirement benefits by achieving an investment return that, at a minimum, equals the Plan's actuarial interest rate assumption on an ongoing basis without exposing the Plan to undue risk. The following is the target asset allocation approved by the Pension Board:

Asset Class	Target Allocation
Large cap domestic equity	25%
Mid cap domestic equity	10%
Small cap domestic equity	10%
International equity	15%
Fixed income	35%
Other	5%
Cash	0%
	100%
Total	100%

Method Used to Value Investments

Investments are reported at fair value. Securities traded on a national or international exchange are valued at the last reported sales price at current exchange rates.

Rate of Return

For the year ended December 31, 2017, the annual money-weighted rate of return on pension plan investments, net of pension plan investment expense, was 14.64%. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested. The cash flows used as inputs in the calculation are determined on a monthly basis.

Prairie Village, Kansas Police Department Retirement Plan (Continued)

Net Pension Liability

The City's net pension liability was measured as of December 31, 2017, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of January 1, 2017.

Actuarial Assumptions

The total pension liability in the January 1, 2017 actuarial valuation was determined using the following actuarial assumptions:

Investment rate of return	7.50%
Discount rate	7.50%
Inflation rate	N/A
Salary scale	5.00%
Mortality table	RP 2000
Actuarial cost method	Entry age normal

CITY OF PRAIRIE VILLAGE, KANSAS
NOTES TO BASIC FINANCIAL STATEMENTS
(Continued)

8 - Employee Retirement Systems and Defined Benefit Pension Plans (Continued)

Prairie Village, Kansas Police Department Retirement Plan (Continued)

Net Pension Liability (Continued)

Actuarial Assumptions (Continued)

The long-term expected rate of return on pension plan investments was determined using benchmarking, recent performance and historical data to develop estimates of future real rates of return for each major asset class. These rates are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage. Best estimates of arithmetic real ratio of return for each major asset class included in the pension plan's target asset allocation are summarized in the following table:

Asset Class	Long-Term Expected Real Rate of Return
Large cap domestic equity	2.7%
Mid cap domestic equity	3.0%
Small cap domestic equity	3.2%
International equity	5.0%
Fixed income	-0.4%
Other	0%
Cash	-0.3%

Discount Rate

The discount rate used to measure the total pension liability as of December 31, 2017 was 7.50%. The projection of cash flows used to determine the discount rate assumed that employer contributions will be made at 22.75% of covered payroll of current plan members for each year in the future plus contributions for future members in excess of their service costs. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources

For the year ended December 31, 2017, the City recognized pension expense of \$ 837,453. At December 31, 2017, the City reported deferred outflows of resources from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 479,100	\$ -
Changes of assumptions	294,646	-
Net difference between projected and actual earnings on pension plan investments	-	347,044
	\$ 773,746	\$ 347,044

Amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ended December 31,			
2018	\$	229,637	
2019		229,635	
2020		38,187	
2021		(80,712)	
2022		9,955	
	\$	426,702	

CITY OF PRAIRIE VILLAGE, KANSAS

NOTES TO BASIC FINANCIAL STATEMENTS

8 - Employee Retirement Systems and Defined Benefit Pension Plans (Continued)

Deferred Compensation Plan

The City offers City employees a deferred compensation plan created in accordance with the Internal Revenue Code, Section 457. The assets of the plan are held in trust as described in IRC Section 457(g) for the exclusive benefit of the participants (employees) and their beneficiaries. The custodian thereof for the exclusive benefit of the participants holds the custodial account for the beneficiaries of this Section 457 plan, and the assets may not be diverted to any other use. The administrators are agents of the employer for purposes of providing direction to the custodian of the custodial account from time to time for the investment of the funds held in the account, transfer of assets to or from the accounts and all other matters. Plan balances and activities are not reflected in the City's financial statements.

9 - Risk Management

The City is exposed to various risks of loss related to torts; damage to and destruction of assets; business interruptions; errors and omissions; employee injuries and illnesses; natural disasters; and employee health, dental, and accident benefits. Commercial insurance coverage is purchased for claims arising from such matters. Settled claims have not exceeded this commercial coverage in any of the three preceding years. There have not been significant reductions in coverage from prior years.

10 - Other Postemployment Benefit Healthcare Plan

Plan Description. The City offers postemployment health insurance for retired employees. The benefits are provided through a single employer defined benefit postemployment healthcare plan administered by the City. The Employee Benefit Plan (the Benefit Plan) provides medical benefits to eligible early retirees and their spouses. K.S.A. 12-5040 requires all local governmental entities in the state that provide a group health care plan to make participation available to all retirees and dependents until the retiree reaches the age of 65 years. No separate financial report is issued for the Benefit Plan.

CITY OF PRAIRIE VILLAGE, KANSAS

NOTES TO BASIC FINANCIAL STATEMENTS

(Continued)

10 - Other Postemployment Benefit Healthcare Plan (Continued)

Funding Policy. The contribution requirements of plan participants and the City are established and amended by the City. The required contribution is based on projected pay-as-you-go financing requirements. If the employee retired prior to January 1, 2009, the contributions are equal to 100% of the full active premium. If the employee retired on or after January 1, 2009, the contributions are equal to 125% of the full active premium unless the employee accepted the early retirement incentive program during 2009, in which case they pay only 100% of the full active premium.

In 2017, the City made contributions of \$ 6,708 to the plan. Plan members receiving benefits contributed \$ 14,827.

Annual OPEB Cost and Net OPEB Obligations. The City's annual other postemployment benefit (OPEB) cost (expense) is calculated based on the annual required contribution (ARC) of the employer, an amount actuarially determined in accordance with the parameters of GASB Statement 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years.

The following table shows the components of the City's annual OPEB cost for the Benefit Plan for the year, the amount actually contributed to the plan, and the changes in the City's net OPEB obligation to the Benefit Plan:

Annual required contribution	\$ 10,820
Interest on net OPEB obligation	1,392
Adjustment to annual required contribution	<u>(1,817)</u>
Annual OPEB cost	10,395
Contributions made	<u>(6,708)</u>
Change in net OPEB obligation	3,687
Net OPEB obligation, beginning of year	<u>30,927</u>
Net OPEB obligation, end of year	<u><u>\$ 34,614</u></u>

CITY OF PRAIRIE VILLAGE, KANSAS
NOTES TO BASIC FINANCIAL STATEMENTS
(Continued)

10 - Other Postemployment Benefit Healthcare Plan (Continued)

The City's annual OPEB cost, the percentage of annual OPEB cost contributed to the Benefit Plan, and the net OPEB obligation for the year ended December 31, 2017 and the two preceding years were as follows:

<u>Fiscal Year Ended</u>	<u>Annual OPEB Cost</u>	<u>Percentage of Annual OPEB Cost Contributed</u>	<u>Net OPEB Obligation</u>
2015	\$ 11,186	56%	\$ 26,588
2016	10,820	60%	30,927
2017	10,395	65%	34,614

Funding Status and Funding Progress. As of January 1, 2015, the most recent actuarial valuation date, the actuarial accrued liability for benefits was \$ 101,471 and the actuarial value of assets was \$ 0, resulting in an unfunded actuarial accrued liability (UAAL) of \$ 101,471. The covered payroll (annual payroll of active employees covered by the Benefit Plan) was \$ 5,696,981, and the ratio of the UAAL to the covered payroll was 1.8%.

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to the financial statement, presents multiyear trend information about whether the actuarial value of plan assets (if any) are increasing or decreasing over time relative to the actual accrued liabilities for benefits.

CITY OF PRAIRIE VILLAGE, KANSAS

NOTES TO BASIC FINANCIAL STATEMENTS

(Continued)

10 - Other Postemployment Benefit Healthcare Plan (Continued)

Actuarial Methods and Assumptions. Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and the plan participants) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan participants to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

In the January 1, 2015 actuarial valuation, the projected unit credit actuarial cost method was used. The actuarial assumptions included a 4.50% investment rate of return, which is the rate of the employer's own investments as there are no plan assets and an annual healthcare cost trend of 7.00% initially, reduced by decrements to an ultimate rate of 5.00% after eight years. The salary increase assumption is 3.5% per year. The UAAL is being amortized as a level dollar over an open thirty-year period.

CITY OF PRAIRIE VILLAGE, KANSAS

COMBINING STATEMENTS – NONMAJOR GOVERNMENTAL FUNDS

Special revenue funds are used to account for specific revenues that are legally restricted to expenditure for particular purposes.

1. **Special City Street and Highway Fund** – This fund accounts for gasoline taxes designated for construction and maintenance of the City streets and curbing and related expenditures.
2. **Special Parks and Recreation Fund** – This fund is used to fund various City-sponsored park and recreation activities funded by the state liquor tax.
3. **Special Alcohol Fund** – This fund accounts for the operation of services and programs pertaining to alcohol misuse and is funded by the state liquor tax.
4. **Grant Fund** – This fund accounts for the revenues and expenditures related to state and federal grants.
5. **Corinth CID** – This fund accounts for monies received from the Community Improvement District additional 1% sales tax to be expended on development within Corinth Square.
6. **PV Shops CID** – This fund accounts for monies received from the Community Improvement District additional 1% sales tax to be expended on development within PV Shops.
7. **TIF Fund** – This fund accounts for property tax distributions that are held by the City for the commercial piece of the Meadowbrook TIF distributions.

CITY OF PRAIRIE VILLAGE, KANSAS

Statistical Section

This part of the City of Prairie Village's *Comprehensive Annual Financial Report (CAFR)* presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the City's overall financial health.

Contents

Financial Trends	92 - 98
------------------	---------

These schedules contain trend information to help the reader understand how the City's financial performance and well-being have changed over time.

Revenue Capacity	99 - 105
------------------	----------

These schedules contain information to help the reader assess the City's most significant local revenue source, the property tax.

Debt Capacity	106 - 110
---------------	-----------

These schedules present information to help the reader assess the affordability of the City's current levels of outstanding debt and the City's ability to issue additional debt in the future.

Demographic and Economical Information	111 - 112
--	-----------

These schedules offer demographic and economic indicators to help the reader understand the environment within which the City's financial activities take place.

Operating Information	113 - 115
-----------------------	-----------

These schedules contain service and infrastructure data to help the reader understand how the information in the City's financial report related to the services the City provides and the activities it performs.

Sources: Unless otherwise noted, the information in these schedules is derived from the Annual Financial Report for the relevant year.

CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS
LAST TEN YEARS
(modified accrual basis of accounting)

	2008	2009
Revenues:		
Taxes	\$12,727,356	\$12,349,694
Intergovernmental	1,590,358	1,198,401
Licenses and permits	459,552	413,294
Charges for services	2,953,846	4,466,317
Fines and forfeitures	1,006,365	959,292
Recreation fees	429,579	437,850
Interest earnings	335,600	125,115
Other	86,081	80,625
Total revenues	19,588,737	20,030,588
Expenditures:		
Urban management and planning	3,154,433	3,314,992
Public works	4,301,887	4,540,778
Public safety	5,363,206	5,610,354
Municipal justice	372,212	389,608
Leisure and recreation	759,294	556,029
Capital outlay	6,064,642	5,218,463
Debt service:		
Principal	475,000	1,060,000
Interest and other charges	79,770	66,220
Bond issuance costs	-	-
Total expenditures	20,570,444	20,756,444
Excess of revenues over (under) expenditures	(981,707)	(725,856)
Other financing sources (uses):		
Transfer in	6,795,069	4,971,475
Transfer out	(6,795,069)	(4,971,475)
Bond premium	-	136,329
Sale of bonds	-	10,085,000
Proceeds from sale of general capital assets	-	-
Total other financing sources (uses)	-	10,221,329
Net change in fund balances	(\$981,707)	\$9,495,473
Debt service as a percentage of noncapital expenditures	3.27%	6.82%

(1) Beginning in 2015, shared revenues received are being reported (1) either as unrestricted intergovernmental revenues or as operating/capital grants and contributions (if the revenues are restricted for specific programs) on the statement of activities and (2) as intergovernmental revenues on the statement of revenues, expenditures, and changes in fund balances.

(1) The County Assessor values real property as required by State Statute and rulings of the State Board of Tax Appeals. Prior to 1989, real property was valued at 24% of estimated values. Real property is now valued at different percentages which reflect the property's use. Residential land, improvement, and vacant lots (estimated at 83% of real property) are assessed at 11.5% of actual value. Commercial land and improvements are assessed at 25% of actual value.

(2) Personal property is assessed at 30% of actual value. State assessed utilities are assessed at 33%.

Fire District #2	<u>190,000</u>	40.67%	<u>77,273</u>
Total overlapping debt	<u>662,473,100</u>		<u>46,488,677</u>
Total direct and overlapping debt	<u>\$679,907,425</u>		<u>\$63,923,002</u>
Direct and overlapping debt per capita	2,931.58		
Direct and overlapping debt as a percentage of assessed value	17.50%		
Direct and overlapping debt as a percentage of actual value	2.48%		

(1) Information provided by Johnson County Clerk's Office.

Note: Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the City. This schedule estimates the portion of the overlapping debt of those overlapping governments that is borne by the resident and businesses of the City. This process recognizes that, when considering the City's ability to issue and repay long-term debt, the entire debt burden borne by the residents and businesses should be taken into account. However, this does not imply that every taxpayer is a resident, and therefore responsible for repaying the debt, of each overlapping government.

For debt repaid with property taxes, the percentage of overlapping debt applicable is estimated using taxable assessed property values. Applicable percentages were estimated by determining the portion of another government unit's taxable assessed value that is within the City's boundaries and dividing it by each unit's total taxable assessed value. This approach was also applied to the other debt of the overlapping governmental units.
